accounts of moral reasoning have tended either to ignore the differences in what men count as good reasons for their moral judgments or in emphasizing these differences to imply that anything whatsoever can count as a moral reason this book shows that both of these positions rest on a mistaken assumption and by rejecting this assumption brings out important features of moral discourse although moral disagreement is seen to be far more radical than empirical disagreement a framework of agreement is shown to be a precondition of moral discourse and even of the possibility of individual moral decision

diploma thesis from the year 2001 in the subject psychology developmental psychology grade 1 0 free university of berlin language english abstract in this diploma thesis i want to consider several approaches in the area of moral development research given the theory of lawrence kohlberg young children younger than 10 years of age seem to stay completely under the constraints of authorities and rules according to kohlberg children s social judgments and behaviors are determined by instrumental aims to satisfy their own needs and wishes or to avoid punishment in this regard the helping of others or meeting the needs of others is only motivated by instrumental considerations thus in kohlberg s view young children are not able to think or to act in a genuinely moral way in reaction to kohlberg other researchers have suggested that young children are capable to make genuinely moral judgments and to act in a moral way eisenberg e g 1986 has suggested that young children can have empathic or altruistic feelings which lead them to conduct prosocial acts other researchers e g keller 1996 nunner winkler 1993 assert that children under

the age of ten years are able to understand and feel moral emotions which they consider as constitutive or as indicators for morality turiel and his associates e g turiel 1983 suggest that even children at about 2 years of age are able to differentiate between a moral conventional and personal domain of social knowledge and that children subordinate the importance of personal and conventional rules under the importance of moral rules these approaches to the morality of young children revealed differing results to differing aspects of morality the aim of my work is to examine the above mentioned approaches in order to evaluate the obvious differences between their obtained results and the results of kohlberg my questions are is kohlberg s approach of using authority dilemmas appropriate to investigate children s moral reasoning to what extent do the results of the researchers who claim an early emergence of morality in children s development disprove kohlberg s claims of children s dependency and moral immaturity with regard to authority rules where are the boundaries of the presented approaches
