exploring the lives of left wing soviet refugees who fled the cold war to settle in australia this book uncovers how they adjusted to life under surveillance in the west

the anglo irish union of 1800 which established the united kingdom of great britain and ireland made british ministers in london more directly responsible for irish affairs than had previously been the case the act did not however provide for full integration and

left in existence a separate administration in dublin under a viceroy and a chief secretary this created tensions that were never resolved the relationship that ensued has generally been interpreted in terms of colonialism or post colonialism concepts not without their problems in relation to a country so geographically close to britain and indeed so closely connected constitutionally governing hibernia seeks to examine the union relationship from a new and different perspective in particular it argues that london s policies towards ireland in the period between the union and the anglo irish treaty of 1921 oscillated sharply at times the policies were based on a view of an ireland so distant different and violent that regardless of promises made in 1800 its government demanded peculiarly hibernian policies of a coercive kind c 1800 1830 at others they were based on the premise that stability was best achieved by a broadly assimilationist approach in effect attempting to make ireland more like britain c 1830 1868 and finally they made a return to policies of differentiation though in less coercive ways than had been the case in the decades immediately after the union c 1868 1921 the outcome of this last policy of differentiation was a disposition ultimately common to both of the main british political parties to grant greater measures of devolution and ultimately independence a development finally rendered viable by the implementation of irish partition in 1921 2
