the ongoing confrontation with iran the war against isil the instability in iraq the civil war in syria and the conflict in yemen have all caused major changes in the security situation in the persian gulf and in the regional military balance the strategic partnership between arab gulf states and with the united states and other outside states must now evolve to deal with conventional military threats and a range of new threats including ideological extremists non state actors and their state sponsors and a growing range of forces designed to fight asymmetric wars this new report from the csis

burke chair in strategy provides a 2015 assessment of the gulf military balance the military capabilities of each gulf state the role of the united states as a security partner and the priorities for change in the structure of both the gulf cooperation council and the arab gulf military partnership with the united states the assessment goes far beyond the conventional military balance and examines how force developments in the region affect joint and asymmetric warfare missiles and missile defense nuclear forces as well as terrorism the role of non state actors and outside powers

these proceedings are based on the third of a series of symposia devoted to the use of catalysis for the depollution of exhaust gases of motor vehicles although catalysts have been used for this purpose for some thirty years the subject is still very topical because of its economic impact the increasing number of submitted accepted and published papers amply attests to this fact

this is open access volume of the nl arms offers an interdisciplinary view on the domain of compliance and integrity in international military trade ciimt integrating defence economics international law arms export control frameworks and policies information management organizational sciences and ethics although in academia and from an interdisciplinary perspective ciimt constitutes a relatively novel research domain across private and public defence related sectors the subject evokes high levels of attention and interest instigating a need for critical thinking reflection and creativity to address ensuing multi faceted issues and problems the faculty of military sciences at the netherlands defence academy extends an in house msc programme on ciimt which by integrating practice based and scientific based knowledge aims to contribute to this need the msc programme on ciimt is concerned with exploring analysing understanding explaining controlling and improving the military dimension in international military trade more particularly ciimt studies managerial questions regarding strategic trade control of military and dual use goods and services ciimt ties in with the netherlands defence academy s vision on scientific education embedded in the reflective practitioners paradigm uniting both management and leadership skills needed to decide and operate in high tension and high risk knowledge intensive environments the faculty of military sciences uses the reflective practitioners paradigm to refer to critical thinking reflection and bildung that characterize its thinking doers the so called thinking soldiers either at the academic bachelor s or master s level in view of the complexity of the international trade regarding military and dual use goods and services the rapid evolvement of strategic trade control and frameworks and its importance to procurement processes defence organizations require innovative thinking doers who based on an in depth understanding from an interdisciplinary
