known as the jug because of its fuselage shape the republic p 47 thunderbolt flew in every theatre of wwii except alaska nearly 13 000 were built by war s end the large aircraft carrier eight browning machine guns and up to 2 000 lbs of bombs or rockets and proved an effective fighter and bomber the radial pratt and whitney powerplant put out over 2500 h p and propelled the p 47 at a maximum speed of 426 mph at 30 000 feet originally published by the u s army air force this handbook taught pilots everything they needed to know before entering the cockpit this affordable facsimile of a real wwii manual has been reformatted care has been taken to preserve the integrity of the text

instruktionsbog for det amerikanske jagerfly fra 2 verdenskrig p 51 mustang

based on best practice rules of global importance this handbook offers authoritative commentary and analysis of the international law of military operations encompassing self defence peace operations and other uses of force

this book explores and compares the contemporary military cultures of the united states and the united kingdom the last decade has witnessed astonishing global events from 9 11 and military operations in afghanistan in the same year to the military intervention in libya in 2011 western military forces have been involved in all of these campaigns and have been engaged in continuous military operations for over ten years it is therefore now apt to focus a spotlight on the military cultures of these state based armed forces

this book examines how contemporary american and british military culture is formed focusing explicitly on the six major military institutions the author dedicates a chapter to each of these institutions with each one sharing a unifying analytical framework these chapters explore the formation and sustenance of us uk military culture under the rubric of common themes that include social origins transformative events leaders approaches to war technology and contemporary identity to conclude the book considers the impact of the war on terror on the military cultures of the us and uk as well as likely directions for the future this book will be of much interest to students of military studies strategic studies security studies and comparative politics

this book provides the first comprehensive analysis of factors that transform a *prima facie* non international armed conflict niac into an international armed conflict iac and the consequences that follow from this process of internationalization it examines in detail the historical development as well as the current state of the relevant rules of international humanitarian law the discussion is grounded in general international law complemented with abundant references to case law and illustrated by examples from twentieth and twenty first century armed conflicts in part i the book puts forward a thorough catalogue of modalities of conflict internationalization that includes outside intervention state dissolution and recognition of belligerency it then specifically considers the legal qualification of complex situations that feature more than two conflict parties and contrasts the mechanism of internationalization of armed conflicts with the reverse process of de internationalization part ii of the book challenges the conventional wisdom that members of non state armed groups do not normally benefit from combatant status it argues that the majority of fighters belonging to non state armed groups in most types of internationalized armed conflicts are in fact eligible for combatant status finally part iii turns to belligerent occupation traditionally understood as a leading example of a notion that cannot be transposed to armed conflicts occurring in the territory of a single state by contrast the book argues in favour of the applicability of the law of belligerent occupation to internationalized armed conflicts

this document summarizes the discussion and findings of a workshop on intelligent compaction for soils and hot mix asphalt held in

west des moines iowa on april 2 4 2008 the objective of the meeting was to provide a collaborative exchange of ideas for developing research initiatives that accelerate implementation of intelligent compaction ic technologies for soil aggregates and hot mix asphalt technical presentations working breakout sessions a panel discussion and a group implementation strategy session comprised the workshop activities about 100 attendees representing state departments of transportation federal highway administration contractors equipment manufacturers and researchers participated in the workshop
