moving beyond moving beyond theology contextualization and binaries is needed today globally based on the author s personal journey and critical challenges today which call for new worldviews

four views on moving beyond the bible to theology evaluates interpretive models of applying biblical texts and provides perspectives on questions of moving from scripture to theology

this volume looks at sustainable protection and sustainable use of cultural and natural heritage particularly in view of the current challenges of the 21st century for more than 40 years the world heritage convention has regulated the protection of the cultural and natural heritage of humankind particularly in that heritage shall be protected if it is threatened by modern development the international community has also adopted sustainability and sustainable development as objectives to facilitate the protection of cultural and natural heritage sustainable heritage protection and use must therefore be preserved in the face of the global challenges it faces and must be perceived in terms of societal political and corresponding economic paradigms

what challenges are posed by changing transnational trends agendas and movements that affect disabled people s lives and what can disabled people their representative organisations and their governments do to advance the agenda for self determination and inclusion this book draws together the writing of academics and activists to depict the experience and perspective of disabled people in relation to a range of contemporary social changes with a focus firmly on ways in which disabled people and their allies can act to counter disabling policies and practices throughout the book there is an emphasis on disabled people s own voices and activism as the critical driver of theoretical critique and practical change chapters address a wide range of cultural institutional and personal arenas to explore and contest the boundaries that disabled people seek to move beyond from cross border labour movements in korea to experience of day services in england from continuing and long lasting realities of wars in lebanon cambodia and somalia to the beauty of harmony in navajo traditions for understanding disability from collective activism to individual participation in the olympics this book is recommended reading for students researchers and activists interested in disability studies and is directly relevant to policy makers and practitioners in a position to reshape rights spaces and innovations in response to the priorities disabled people feel and articulate are important for their lives it was originally published as a special issue of disability

society

since the u s department of energy as well as other federal and international agencies will stop granting contracts to companies that fail to comply with 14000 standards the search is on for any book that will make 14000 compliance easier tom welch with more than 20 years experience in environmental engineering and project management provides such a book moving beyond environmental compliance a handbook for integrating pollution prevention with iso 14000 is the first text to combine the best aspects of pollution prevention p2 total quality management tqm and iso 14000 into a comprehensive how to guidebook for achieving environmental compliance the ever increasing cost of environmental compliance as it is passed onto consumers cuts into the profit margin and reduces an organization s competitive edge at the very least compliance cuts into operating budgets and directs attention away from the primary business of an organization this handbook demystifies the implementation of effective environmental management systems as described in the iso 14000 and clarifies the application of effective pollution prevention methodologies that can drastically reduce this compliance burden

despite astute critiques and available resources for alternative modes of thinking and practicing individualism continues to be a dominating and constraining ideology in the field of pastoral psychotherapy and counseling philip rieff was one of the first to highlight the negative implications of individualism in psychotherapeutic theories and practices as heirs and often enthusiasts of the freudian tradition of which rieff and others are critical pastoral theologians have felt the sting of his charge and yet the empirical research that mcclure presents shows that pastoral counseling practitioners resist change their attempts to overcome an individualistic perspective have been limited and ineffective because individualism is embedded in the field s dominant theological and theoretical resources practices and organizational arrangements only a radical reappraisal of these will make possible pastoral counseling practices in a post individualistic mode mcclure proposes several critical transformations broadening and deepening the operative theologies used to guide the healing practice expanding the role of the pastoral counselor reimagining the operative anthropology reclaiming sin and judgment nuancing the particular against the individual rethinking the ideal outcome of the practices and reimagining the organizational structures that support the practices only this level of revisioning will enable this ministry of the church to move beyond its individualistic limitations and offer healing in more complex effective and socially adequate ways

this book provides a unique collection of over 30 methods to study deliberative democracy written in an accessible style it provides guidance for scholars and students on how to conduct rigorous and creative research on the public sphere structured forums and

political institutions

the fundamental question asked in this book is what is the basic structure of the postcolonial african state taking the postcolonial african state as it is and as it ought to be frank abumere defines the basic structure of the postcolonial african state as how the scope and contents of the rights and obligations that govern the vertical and horizontal relationships within the postcolonial african state are determined in his conception of the basic structure of the postcolonial african state on the one hand vertical relationship is the relationship between the state and its citizens and residents what the state owes to its citizens and residents and what they owe to the state on the other hand horizontal relationships are the relationships among citizens and residents and what they owe to one another

over the past decade there has been an increasingly receptive audience for participatory and qualitative research methods by policy makers development practitioners and academics working in applied research at the same time there is an increasing awareness that the value of research can be enhanced through a more systematic combination of quantitative and qualitative methods while this recent interest has begun to provide useful pointers as to how development research might be improved it has also given rise to certain problems this book will draw together lessons about emerging best practice with regard to combining qualitative and quantitative methods and approaches to generate numbers from qualitative participatory methods and to monitor and evaluate development processes it will build and expand upon innovation and reflection from practice in developing and developed societies from within development agencies and academia government departments and civil society organizations by drawing on current research in many sectors and countries the book will situate current development research issues squarely within debates about development policy and social research and it will help begin the process of defining best practice in the use of participatory qualitative and quantitative methods and issues of methodological triangulation which are of considerable interest to academics practitioners and policy makers a genuine how to manual which combines best practice and new innovations and presents fascinating material for academics practitioners and policy makers
