définitivement nous avons tourné la page du xxe siècle le retour de la couleur le dit elle avait accompagné avec vigueur les débuts du modernisme dans les années vingt avant que ne triomphe l'esthétique épurée des white et des gray un demi siècle plus tard son retour actuel ouvre à la production un éventail inédit de possibilités elles vont de la plus intense polychromie à sa négation radicale dans une vision distanciée du rapport au passé la fin de l'idéologie moderne post ou néo moderne nous a entraînés dans la spirale

de l'éclectisme de ce fait nous assumons l'hétérogénéité des héritages culturels et la capacité pour chacun de s'assimiler à l'un ou l'autre d'entre eux cette vision éclatée n'est pas sans danger l'infinité des répertoires brouillant tout message on peut y voir le préalable à de nouveaux engagements moins dispersés et à de nouvelles certitudes espérons le du moins

this monograph presents new theory and methods of solving inverse stefan problems for quasilinear parabolic equations in domains with free boundaries this new approach to the theory of ill posed problems is useful for the modelling of nonlinear processes with phase transforms in thermophysics and mechanics of continuous media

in this easily accessible textbook the authors integrate the ill posed problem theory and its underlying mathematical apparatus this comprehensive work includes descriptions of recent results and a presentation of actual applications of the ill posed problem theory the first part of the book describes the differentiation of normed space mappings the integration of the functions of abstract variables and the theory of linear operators the second section deals with the mathematical physics connected to integral equations of the first type and with the bases of operator equation theory
