in the indian context

a majority of people living in rural areas and urban slums worldwide have minimal access to healthcare without information about what to give a child with stomach flu how to relieve the pain of a broken bone and how to work against increased substance abuse in a village the whole community suffers children adolescents adults and older people

are all affected by the lack of what many of us view as basic healthcare such as vaccination pain killers and contraceptives to improve living conditions and life expectancy the people in urban slums and rural areas need access to a trained health care worker and a functioning clinic setting up community health and development programmes in low and middle income settings illustrates how to start develop and maintain a health care programme in poor areas across the world the focus is on the community and how people can work together to improve health through sanitation storage of food fresh water and more currently there is a lack of 17 million trained health care workers worldwide bridging the gap between medical professionals and people in low income areas the aim of this book is for a member of the community to receive training and become the health care worker in their village they will then in turn spread information and set up groups working to improve health the book also explains in detail how communities can work alongside experts to ensure that practices and processes work effectively to bring the greatest impact copiously illustrated and written in easy to read english this practical guide is designed to be extremely user friendly ideal for academics students programme managers and health care practitioners in low and middle income settings worldwide it is an evidence based source full of examples from the field setting up community health and development programmes in low and middle income settings shows how a community can both identify and solve its own problems and in that way own its future this is an open access title available under the terms of a cc by nc 4 0 international licence

this highly successful textbook is now in its fourth edition and has been extensively updated in order to keep pace with the considerable advances in theory and practice in recent years

how did singapore s health care system transform itself into one of the best in the world it not only provides easy access but its standards of health care not only in curative medicine but also in prevention are exemplary fifty years ago

the infant mortality rate imr was 26 per thousand live births today the imr is 2 life expectancy was 64 years then today it is 83 the singapore medicine brand is trusted internationally and patients are drawn to singapore from all over the world and while many countries struggle to finance their health care singapore has developed a health care financing framework that makes health care affordable for its people and gives sustainability to the health care system reliability is provided by a professional workforce that seeks to continually learn improve and become ever more proficient with cutting edge technology while emphasizing the relational aspects of health care by nurturing compassion and maintaining high standards of integrity convenience and safety are enhanced by a unifying it system that enables the portability of medical records across health care institutions all these have been achieved not by chance but by careful planning strong leadership and dedicated people who are prepared to learn from singapore s own experience while adapting best practices from around the world but the system is not without challenges not least those of an aging population and an increasing market influence this book provides a fascinating insight into the development of singapore s health care system from the early days of fighting infections and providing nutrition supplementation for school children to today s management of lifestyle diseases and high end tertiary care it also discusses how the system must adapt to help singaporeans continue to live well live long and with peace of mind
