in this first comprehensive study of the latin passion play professor sticca examines the medieval liturgical ceremonies commemorating the events in christ s passion

and traces their gradual change in character from the contemplative to the dramatic the author shows that while christ s passion became increasingly popular as one of the sacred mysteries beginning in the tenth century new forces that allowed a more eloquent and humane visualization and description of christ s anguish first appeared in the eleventh and twelfth centuries professor sticca analyzes the earliest extant latin passion play the twelfth century montecassino codex and compares it with other latin and vernacular passion plays he refutes the traditional view that the planctus mariae is the germinal point of the latin passion play and then offers a new theory of its inception as a literary form the latin passion play appears to professor sticca as a creation of the montecassino monastic circle which was inspired by the liturgical services of good friday and the gospel accounts particularly influential also were three themes that developed in the eleventh century in liturgy a concentration on christocentric piety in art a more humanistic treatment of christ and in literature a consideration of the scenes of the passion as dramatic and human episodes in the course of this investigation professor sticca also reappraises traditional views of the origin of the medieval liturgical drama indicating that it should not be traced exclusively to the tropes from the schools of st gall and st martial of limoges but rather to a number of sources

this volume centers on three important theoretical concepts for the study of language change and the ways in which language structure emerges and turns into new structure reanalysis actualization and indexicality reanalysis is a part of ongoing everyday language use a process through which language is reproduced and changed actualization refers to the processes through which a reanalyzed structure spreads throughout single communities and society indexicality covers the way in which parts of a linguistic system can point to other parts of the system both syntagmatically and paradigmatically the inclusion of indexicality leads to fine grained analysis in morphology word order and constructional syntax

a social history of reception this study focuses on sacred art and catholicism in rome during the late sixteenth and seventeenth centuries the five altarpieces examined here were painted by artists who are admired today caravaggio guercino and guido reni and by the less renowned but once influential tommaso laureti and andrea commodi by shifting attention from artistic intentionality to reception pamela jones reintegrates these altarpieces into the urban fabric of early modern rome allowing us to see the five paintings anew through the eyes of their original audiences both women and men rich and poor pious and impious because italian churchmen relied after the council of trent on public altarpieces more than any other type of contemporary painting in their attempts to reform and inspire catholic society it is on altarpieces that pamela jones centers her inquiry through detailed study of

evidence in many genres including not only painting prints and art criticism but also cheap pamphlets drama sermons devotional tracts rules of religious orders pilgrimages rituals diaries and letters jones shows how various beholders made meaning of the altarpieces in their aesthetic devotional social and charitable dimensions this study presents early modern catholicism and its art in an entirely new light by addressing the responses of members of all social classes not just elites to art created for the public it also provides a more accurate view of the range of religious ideas that circulated in early modern rome by bringing to bear both officially sanctioned religious art and literature and unauthorized but widely disseminated cheap pamphlets and prints that were published without the mandatory religious permission on this basis jones helps to illuminate further the insurmountable problems churchmen faced when attempting to channel the power of sacred art to elicit orthodox responses
