an encounter between philosophy and journalism recurs across the modern philosophical tradition images of reporters and newspaper readers messengers and town criers announcements and rumors populate the work of such thinkers as kierkegaard nietzsche and benjamin this book argues that these three thinkers preoccupation with journalism cannot be separated from their philosophy proper but plays a pivotal role in their philosophical work where it marks an important nexus between their theories of history time and language journalism in the tradition vandeputte brings to light figures before anything else as a cipher of the time in which philosophy is written if the journalist and newspaper reader characterize what kierkegaard calls the present age that is because they exemplify a present marked by the crisis of the

philosophy of history a time after the demise of history as a philosophizable concept in different ways the pages of the newspaper appear in the european philosophical tradition as a site where teleological and totalizing representations of history must founder together with the conceptions of progress and development that sustain them but journalism does not simply mark the end of philosophy for kierkegaard nietzsche and benjamin journalistic writing also takes on an exemplary role in the attempt to think time and history in the wake of this demise the concepts around which these attempts crystallize kierkegaard s instant nietzsche s untimeliness and benjamin s actuality all emerge from the philosophical confrontation with journalism and its characteristic temporalities

this festschrift for ronald speirs professor of german at the university of birmingham contains twenty four original essays by scholars from great britain germany austria and norway between them they encompass the entire modern period from the later eighteenth century onwards and focus on a wide range of german speaking environments several essays throw new light on authors to whom professor speirs himself has devoted particular attention such as brecht thomas mann nietzsche and fontane whilst others discuss writers such as lenz büchner böhlau c f meyer keyserling jahnn and huch above all however the contributions address the complexities of writing in ideologically diverse contexts including the third reich and the former german democratic republic this interplay between text and context is the cornerstone which links all the essays as it has consistently informed ronald speirs s own work which combines a scrupulous attention to textual detail with an acute awareness of the socio political milieux and philosophical influences that shape creative literature

homo temporalis focuses on the importance of temporal concepts for four german jewish thinkers who profoundly shaped twentieth century intellectual history martin buber walter benjamin hannah arendt and paul celan by analyzing the concept of time nitzan lebovic explores buber s stress on the temporality of the dialogue between i and thou benjamin s now time and dialectics in standstill arendt s understanding of democracy as natality or a permanent revolution and the breathturn that informs celan s poetry framing the reception of german jewish thinking in the second half of the twentieth century as a parallel story to the rise of the modern humanities homo temporalis also highlights how these foundational temporal concepts illuminate the causes of the present crisis in the humanities and its disciplinary limitations in the age of biopolitics and the anthropocene

one of the south s most urgent priorities in the civil war was obtaining the recognition of foreign governments edwin de leon a confederate propagandist charged with wooing britain and france opens up this vital dimension of the war in the earliest known account by a confederate foreign agent first published in the new york citizen in

1867 68 de leon s memoir subsequently sank out of sight until its recent rediscovery by william c davis one of the civil war field s true luminaries both reflective and engaging it brims with insights and immediacy lacking in other works covering everything from the diplomatic impact of the battle of bull run to the candid opinions of lord palmerston to the progress of secret negotiations at vichy de leon discusses among other things the strong stand against slavery by the french and a frustrating policy of inaction by the british as well as the troubling perceptions of some europeans that the confederacy was located in south america and that most americans were a cross between davy crockett and sam slick with france s recognition a priority de leon published pamphlets and used french journals in a futile attempt to sway popular opinion and pressure the government of napoleon iii his interpretation of the latter s meeting with confederate diplomat john slidell and the eventual mediation proposal sheds new light on that signal event de leon was a keen observer and a bit of a gossip and his opinionated details and character portraits help shed light on the dark crevices of the south s doomed diplomatic efforts and provide our only inside look at the workings of napoleon s court and parliament regarding the confederate cause davis adds an illuminating introduction that places de leon s career in historical context reveals much about his propagandist strategies and traces the history of the secret history itself together they open up a provocative new window on the civil war
