ezra pound the poet called the contemporary of our grandchildren has exercised enormous influence on the development of american poetry and criticism this impact on the world of letters is only grudgingly acknowledged today since it comes from a poet tainted by fascism and anti semitism this book follows the contours of our love for his poetics and hate for his politics juxtaposing pound's work to postmodern theory the contrasts prevail in the relation of language to reality in the moral and political commitments and in the vision of history at the same time pound's poetic practices particularly his collage techniques and series of englishes overflowed his political ideology it is this overflow that makes him so fascinating to intellectuals and the main reason we study his work with respect now

mourning modernism postmodernism illuminates the emergence of a fundamentally new way of thinking and writing about loss in the twentieth century novel one that spurns consolation and the conventional aim of closure inaugurated in the modernist novel the

Deep Space and Sacred Time examines for the first time in book-length form the many ways Star Trek has served as a mythic reference point for American society and suggests that an understanding of this phenomenon can help us to see ourselves more clearly as a culture.

With the recent collapse of so much that formed socialist expectations in the twentieth century and yet at the same time with a global capitalist order which is full of severe, massive and urgent problems, we live in a period of great political confusion. In such a period it is inevitable that nostrums are advanced both on the right and on the left which are incapable of tackling seriously the problems they are supposed to resolve. We conceived this volume as addressing a broad range of dead-end or morbid symptom responses to various aspects of the current global disorder, offering analyses of why they arise as well as a critique and corrective to them. We deliberately cast our net widely. The essays in this volume highlight important aspects of our theme in relation to environmentalism, feminism, social democracy and revolutionary socialism, and they also address real problems and false solutions as they pertain to postmodernism, nationalism, constitutionalism and immigration.
