given the significant changes in the banking environment and the resultant pressures on banks to change their systems and procedures this book is a timely reference that provides a comprehensive analytical overview of changes in the performance measurement system pms of banks in the post financial crisis era it explores the factors that influence such changes and examines banks consequential responses to institutional pressures it is an invaluable resource for researchers and practitioners to gain insights into the concept of pms change in both developed and developing economies

this book deals with topics that bankers must know and lawyers should know many examples and common law cases are cited to illustrate the banking law and practice in hong kong on banking operations securities negotiable instruments bank customer relationship bankruptcy and corporate insolvency

free banking is a term that refers to the total deregulation of the banking industry it signifies an absence of such constraints as reserve requirements capital requirements government deposit

insurance and limitations on branching above all it means that private banks would be allowed to issue their own currency this book takes a fresh approach to that controversial topic sechrest proposes that free banking constitutes the final vindication of say s law that the optimal monetary goal monetary equilibrium can only be achieved under free banking that the monetarist and austrian business cycle theories are complementary and that the most likely form of free banking will be that in which banks issue specie convertible notes and hold fractional reserves after defining free banking the author explains why he adopts the well known white selgin model he then discusses the key characteristics of laissez faire banks which form the basis for a formal model complete with graphs which may be used in the classroom the unique relationship between the market for money and the market for time that exists under free banking suggests that business cycles will be minimized under such a regime that relationship also leads to the insight that the austrian and monetarist cycle theories are really two sides of the same coin new evidence is presented that leads the author to the conclusion that both lawrence white s portrayal of scottish free banking and the traditional image of american free banking are exaggerated three different basic models of free banking are then reviewed in detail and critiqued finally the author suggests both some possible topics for future research and that free banking is desirable socially and politically as well as economically

vols 64 96 include central law journal s international law list
