war breeds myths especially those made up by the vanquished to explain or soften their loss occasionally the myths of the defeated center on prisoners of war pows and those missing in action mias to justify the lost struggle mute national guilt and sometimes even reject the reality of defeat itself traumatic defeat takes a close comparative look at two cases of this kind of mythmaking in west germany in the wake of world war ii and in the united states after the vietnam war the book examines a specific case of mythmaking that revolves around the ambiguity of missing men and the trauma resulting from their unresolved fates the secret camp myth so called for the covert facilities where the missing supposedly survive shared certain features in postwar germany and america both nations suffered extreme trauma and struggled to find redemptive elements in their wartime experiences both focused on pows and mias to minimize their guilt and recast themselves as victims of wars they had started author patrick gallagher examines the similarities between west germany s myth aimed at men lost in the

soviet union and america s myth directed at those missing in southeast asia the differences however are instructive particularly the longevity of the american myth involving a few thousand soldiers compared with the relative short life of the more plausible german version involving millions in search of the nature and meaning of these myths gallagher takes us into the wars themselves the circumstances in which soldiers went missing and the manner in which each nation framed its losses according to its own political ideological and historical needs traumatic defeat the first in depth comparative study of this phenomenon reveals how myths conjured in the trauma of military defeat can distort and dominate national conversations on the history of warfare aftermath and loss

a persuasive but painful solution for dealing with the mess in the middle east kirkus the greatest danger to america's peace and prosperity notes leading middle east policy analyst kenneth m pollack lies in the political repression economic stagnation and cultural conflict running rampant in arab and muslim nations by inflaming political unrest and empowering terrorists these forces pose a direct threat to america's economy and national security the impulse for america might be to turn its back on the middle east in frustration over the george w bush administration's mishandling of the iraq war and other engagements with arab and muslim countries but such a move pollack asserts will only exacerbate problems he counters with the idea that we must continue to make the middle east a priority in our policy but in a humbler more humane more realistic and more cohesive way pollack argues that washington's greatest sin in its relations with the middle east has been its persistent unwillingness to make the sustained and patient effort needed to help the people of the middle east overcome the crippling societal problems facing their governments and societies as a result the united states has never had a workable

comprehensive policy in the region just a skein of half measures intended either to avoid entanglement or to contain the influence of the soviet union beyond identifying the stagnation of civic life in arab and muslim states and the cumulative effect of our misguided policies pollack offers a long term strategy to ameliorate the political economic and social problems that underlie the region s many crises through his suggested policies america can engage directly with the governments of the middle east and indirectly with its people by means of cultural exchange commerce and other soft approaches he carefully examines each of the region s most contested areas including iraq iran syria and lebanon as well as the israeli palestinian peace process and explains how the united states can address each through mutually reinforcing policies at a time when the nation will be facing critical decisions about our continued presence in iraq and afghanistan a path out of the desert is guaranteed to stimulate debate about america s humanitarian diplomatic and military involvement in the middle east

from an award winning civil rights lawyer a profound challenge to our society s normalization of the caging of human beings and the role of the legal profession in perpetuating it alec karakatsanis is interested in what we choose to punish for example it is a crime in most of america for poor people to wager in the streets over dice dice wagerers can be seized searched have their assets forfeited and be locked in cages it s perfectly fine by contrast for people to wager over international currencies mortgages or the global supply of wheat wheat wagerers become names on the wings of hospitals and museums he is also troubled by how the legal system works when it is trying to punish people the bail system for example is meant to ensure that people return for court dates but it has morphed into a way to lock up poor people who have not been convicted of anything he s so concerned about this that he has personally sued court systems across the country resulting in literally tens of thousands of people being released from jail when their money bail was found to be unconstitutional karakatsanis doesn t

think people who have gone to law school passed the bar and sworn to uphold the constitution should be complicit in the mass caging of human beings an everyday brutality inflicted disproportionately on the bodies and minds of poor people and people of color and for which the legal system has never offered sufficient justification usual cruelty is a profoundly radical reconsideration of the american injustice system by someone who is actively wildly successfully challenging it
