Empress Catherine II produced a body of written material so vast and diverse that it seems

impossible to provide a general characterization of the works contained in the authoritative twelve volume collection assembled by a n pypin from handwritten source material this book does not attempt an all embracing review of catherine s entire literary output which consists of works in multiple genres and languages the russian empress s writings have been the repeated subject of serious analysis for nineteenth and twentieth century researchers all of these in one way or another demonstrate that across a variety of genres and formats with a greater or lesser degree of independence and originality the literary works of catherine ii always express her politics and ideology these texts were carefully prepared their publications and stage productions executed magnificently as a rule the most significant works were translated into french german and in some cases english european readers as well as the russian public were expected to be attentive witnesses to and happy consumers of the monarch s compositions amongst rulers the literary productivity of the russian empress has no analogue in history this volume is the first study in english of the vast literary output of catherine the great
