introduction to the mystery of the church is an ecclesiological survey presenting a doctrinal synthesis of the church the author s intention is to propose an overview of this mystery in connection with the entirety of the christian mystery the book is divided into two major parts the first presenting the foundations in the bible and the tradition up to our day and the second being an explanatory proposal introducing the reader to the church s definition and personality and concluding with an exposition of the four properties enunciated in the creed one holy catholic and apostolic the value of this way of proceeding is first and foremost in the proposal of a synthesis that allows one to situate each question in its rightful place such study being oriented toward a better overall grasp of the subject as the title suggests the book is an introduction that should allow the reader to apprehend the mystery in its internal coherence in order subsequently with the aid of other texts to be able to enter more deeply into the study of one or other specific point while this ecclesiology treatise is written from a catholic point of view an ecumenical perspective is often present either through the presentation of divergent views from other christian confessions or through the proposal for a theological convergence

what is church's true foundation was the christian church founded by jesus or does the eucharist make the church paul avis sets out his own answer to these questions gathering a wide range of critical scholarship he argues that there is something solid and dependable at the foundation of the church's life and mission avis argues that jesus wanted a church in a sense but not as we know it christ proclaimed the gospel of the kingdom and his disciples proclaimed the gospel whose content was jesus himself the kingdom in person the church is battered and divided but at its core is a treasure that is indestructible the gospel of christ embodied in word and sacrament a central theme of the book is the relationship between the church and christ the church and the gospel the church and the kingdom jesus christ crucified and risen is the sole foundation of the church but he cannot be without his people

an upper level introduction to the christian doctrine of the church this book is a rigorous comprehensive introduction to the doctrine of the church by taking the tack of walking readers through the internal logic of ecclesiology rather than simply offering a compendium of perspectives on each issue that arises the authors seek to teach and model thinking theologically with the grain of scripture and ecclesial reflection about the church the chapters are peppered with two to three excurses per chapter which consider a particularly pertinent issue that arises from the doctrine's development e.g. the move from jesus to the church schism and the rise of denominations sacramental mediation or contemporary concerns e.g. the question of other religions contemporary ecumenical questions the emerging church while the overall tone and content of the book articulate and invite discussion on the problematics of ecclesiology these excurses will provide ample opportunity to examine and where appropriate untangle ecclesiological knots continuum's guides for the perplexed are clear concise and accessible introductions to thinkers writers and subjects that students and readers can find especially challenging or indeed downright bewildering concentrating specifically on what it is that makes the subject difficult to grasp these books explain and explore key themes and ideas guiding the reader towards a thorough understanding of demanding material

what does the church believe every church has a driving confession but what is the confession of a true and biblical church the heart of the church answers with the gospel it explains the story of the gospel its basic doctrines and god's work in salvation fresh yet consistent with classic expressions it helps churches reclaim their essential identity and return from distracting pursuits useful for training in membership classes discipleship groups and elder boards and even for devotional reading the heart of the church is at once theological practical and experiential readers will not simply be informed but led to believe in rejoice in and be transformed by the truth of god for his gathered people without the gospel the church does not exist this book is thorn's full and detailed exploration of the message that is indispensable to the church's life and identity for any church lacking power any christian feeling dry or any person seeking truth the heart of the church brings relief direction and light leading to worship

renowned evangelical theologian gerald bray provides a clear and coherent account of the church in biblical historical and theological perspective he tells the story of the church in its many manifestations through time starting with its appearance in the new testament moving through centuries of persecution and triumph and discussing how and why the ancient church broke up at the reformation along the way bray looks at the four classic marks of the church its oneness holiness catholicity and apostolicity and illustrates how each of these marks has been understood by different christian traditions the book concludes with a look at the ecumenical climate of today and suggests ways that the four characteristics of the church can and should be manifested in our present global context this accessible introduction to the church from an evangelical perspective explores ecclesiology through the lenses of church history and doctrine to reveal what it means for us

from its beginnings the church has presented itself as a human phenomenon that carries the divine within it as a social fact its reality given form by men and women the church has always affirmed that its existence surpasses the human reality of its components and that it stands as the continuation of the event of christ s entry into human history why the church the final volume in mcgill queen s university press s trilogy of luigi giussani s writings explores the church s definition of itself as both human and divine and evaluates the truth of this claim giussani begins by focusing on the church as a community composed of people who are aware of themselves as defined by the gift of the spirit from which they derive a new conception of existence the fruit of conversion he then describes the church s developing self awareness of its dual elements of the human and divine concerned with verifying the church s claim to embody christ giussani situates the locus of verification in human experience arguing that a different type of life is born in those who try to live the life of the church why the church is a seminal study that will engage both the scholar and the general reader luigi giussani is professor emeritus of the universit cattolica del sacro cuore in milan italy and is the founder of the catholic lay movement communion and liberation which is flourishing in italy and has spread to over sixty countries throughout the world including canada the united states and britain

in a culture dominated by the individualistic values of political and social liberalism gary badcock says that we seldom hear of the church as the creature of the word of god the church has been entrusted to us by god and belongs to the structure of the christian faith itself ecclesiology is first of all theology because it is primarily about the presence of god badcock maintains and is thus biblical and creedal one holy catholic and apostolic something that we believe which is what undergirds its empirical sociological and even pastoral function rather than a hollow shell where humans dream moral dreams and do good deeds the church is the house where god lives
