textbooks in history geography and the social sciences provide important insights into the ways in which nation states project themselves based on case studies of france germany the netherlands spain greece turkey bulgaria russia and the united states this volume shows the role that concepts of space and time play in the narration of our country and the wider world in which it is located it explores ways in which in western european countries the nation is reinterpreted through european lenses to replace national approaches in the writing of history on the other hand in an effort to overcome eurocentric views world history has gained prominence in the united states yet again east european countries coming recently out of a transnational political union have their own issues with the concept of nation to contend with these recent developments in the field of textbooks and curricula open up new and fascinating perspectives on the changing patterns of the re positioning process of nation states in west as well as eastern europe and the united states in an age of growing importance of transnational organizations and globalization

focuses on individual lived experiences to trace the development of world historical studies in china s long twentieth century

a comprehensive and balanced history of the world in the twentieth century william duiker s text not only chronicles the key events in this revolutionary century but also examines the underlying issues that have shaped the times twentieth century world history takes a global approach to the subject while doing justice to the distinctive character of individual civilizations and regions duiker integrates political economic social and cultural history creating a chronologically ordered synthesis that gives students the true flavor of the most decisive moments in recent world history in addition duiker s own photographs and selection of primary source documents which illustrate much of the book are especially effective in illustrating key points in the narrative twentieth century world history is available in the following volume options twentieth century world history third edition isbn 0 534 62811 7 the world since world war ii isbn 0 534 62812 5

this book traces the historical development of the world history course as it has been taught in high school classrooms in texas a populous and nationally influential state over the last hundred years arguing that the course is a result of a patchwork of competing groups and ideas that have intersected over the past century with each new framework patched over but never completely erased or replaced the author crucially examines themes of imperialism eurocentrism and nationalism in both textbooks and the curriculum more broadly the first part of the book presents an overview of the world history course supported by numerical analysis of textbook content and public documents while the second focuses on the

depiction of non western peoples and persistent narratives of eurocentrism and nationalism it ultimately offers that a more global accurate and balanced curriculum is possible despite the tension between the ideas of professional world historians who often de center the nation state in their quest for a truly global approach to the subject and the historical core rationale of state sponsored education in the united states to produce loyal citizens offering a new conceptual understanding of how colonial themes in world history curriculum have been dealt with in the past and are now engaged with in contemporary times it provides essential context for scholars and educators with interests in the history of education curriculum studies and the teaching of world history in the united states
