the indian ocean world has a rich history of socio economic and cultural exchanges across time and space this book and its companion merchants and ports in the indian ocean world explore these connections around the wider indian ocean world the book examines the many overlapping linkages that existed from the early modern period and into the colonial era it offers a clear understanding of the economic networks that extended across the indian ocean and the atlantic during

the 19th century with a critical historical lens the volume discusses themes like the opium trade in the malay indonesian archipelago the biggest opium trade market at the time the safavid mission to siam and the economic relationship between pondicherry and west africa via france rich in archival material this book will be of interest for scholars and researchers of indian ocean history maritime history indian history economic and commercial history south asian history and social history anthropology and trade relations in general

this book assesses india s role as a major power in the indian ocean many see the indian ocean as naturally falling within india s sphere of influence but as this book demonstrates india has a long way to go before it could achieve regional dominance the book outlines the development of indian thinking on its role in the indian ocean and examines india s strategic relationships in the region including with maritime south asia the indian ocean islands east africa the middle east southeast asia and australia the book then discusses india s ambivalent relationship with the united states and explores its attitude towards china s growing power in the indian ocean it concludes by discussing the region s evolving strategic order does india have what it takes to become the leading power in the region

europa s place in history is re assessed in this first comprehensive history of the ancient world centering on the indian ocean and its role in pre modern globalization philippe beaujard presents an ambitious and comprehensive global history of the indian ocean world from the earliest state formations to 1500 ce supported by a wealth of empirical data full color maps plates and figures he shows how asia and africa dominated the economic and cultural landscape and the flow of ideas in the pre modern world this led to a trans regional division of labor and an afro eurasian world economy beaujard questions the origins of

capitalism and hints at how this world system may evolve in the future the result is a reorienting of world history taking the indian ocean rather than europe as the point of departure volume ii provides in depth coverage of the period from the seventh century ce to the fifteenth century ce

this study focuses on the political and strategic implications of the presence in the indian ocean of the united states and the soviet union the author examines the geopolitics of the region in historical perspective and describes the evolution of u s and soviet strategy in the indian ocean the central theme of the book is that the naval deployments of the superpowers should be seen in the context of each power s economic and security interests rather than in the context of military rivalry the book provides an incisive and comprehensive account of u s and soviet strategies in the indian ocean by establishing and integrating the links between the economic political and strategic dynamics of the situation

trade circulation and flow in the indian ocean world is a collection which covers a long time span and diverse areas around the ocean many of the essays look at the indian ocean before europeans arrived reminding the reader that there was a cohesive indian ocean this collection includes empirical studies and essays focused on particular area or production the essays cover various aspects of trade and exchange the indian ocean as a world system east african and chinese connections with the indian ocean world and the movement of people and ideas around the ocean
