this sweeping study of mysticism by jess hollenback considers the writings and experiences of a broad range of traditional religious mystics including teresa of avila black elk and gopi krishna it also makes use of a new category of sources that more traditional scholars have almost entirely ignored namely the autobiographies and writings of contemporary clairvoyants mediums and out of body travelers this study contributes to the current debate about the contextuality of mysticism by presenting evidence that not only are the mystic s interpretations of and responses to experiences culturally and historically conditioned but historical context and cultural environment decisively shape both the perceptual and affective content of the mystic s experience as well hollenback also explores the linkage between the mystic s practice of recollection and the onset of other unusual or supernormal manifestations such as photisms the ability to see auras telepathic sensitivity clairvoyance and out of body experiences he demonstrates that these extraordinary phenomena can actually deepen our understanding of mysticism in unexpected ways a unique feature of this book is its in depth analysis of empowerment an important phenomenon ignored by most scholars of mysticism empowerment is a peculiar enhancement of the imagination thoughts and desires that frequently accompanies mystical states of consciousness hollenback shows its cross cultural persistence its role in constructing the perceptual and existential environments within which the mystic dwells and its linkage to the fundamental contextuality of mystical experience
