of what use is psychology if it does not help to solve the pressing problems  
of the day at the individual and collective levels this is no less a pointed

question to the reader as it is to the author that sets the stage for an adventurous sharing of ideas the author shies away from providing ready made answers but spares no effort in stirring the reader to ponder questions about human nature and behavior soon the reader will react with the exclamation ah this book is about me useful to my life in this way the book serves to bridge the gap between academia and the general public as the reader may well expect bold assertions may be found throughout this volume for instance piaget s stage of formal operations does not represent the final or highest level of cognitive development rather dialectical thinking is the apex of human cognition viewpoints may be controversial such as cautioning against importing confucian education into america the possibility that madness may enrich your life raising the question if trump is immoral mentally deranged or both the present offering is at once audacious and provocative having raised the question about the abysmal status of psychology the author feels compelled to take on the challenge of rewriting an academic discipline the reader is invited to consider new visions for psychology s future development both scientific and practical fresh materials or distinctive features seldom found elsewhere are presented the author s secret thoughts and self revelations a discussion on the birth of evil and reinterpretation of the fall of humankind all these expand the traditional boundaries of psychology and bring it closer to be a science relevant to the human condition

the first four chapters of the book provide a close reading of the satiric comic and tragic action of laurence Sterne s novel in the context of criticism from the twentieth and twenty first centuries chapter 5 provides a summary of chapters 1 4 focusing on Sterne s purpose in revising satiric plot structures and in blurring the lines between fiction and autobiography chapters 6 8 then examine Sterne s themes from *Tristram Shandy* that inform his letters sermons and other fiction chapter 9 discusses the international reception of *Tristram Shandy* and argues for using writing to learn strategies to teach Sterne s greatest novel to undergraduate and graduate students

this volume explores contemporary social conflict focusing on a sort of violence that rarely receives coverage in the evening news this violence occurs when powerful institutions seek to manipulate the thoughts of marginalized people manufacturing their feelings and fostering a sense of inferiority for the purpose of disciplinary control many American institutions strategically orchestrate this psychic violence through tactics of systemic humiliation this book reveals how certain counter measures based in a commitment to human dignity and respect for every person s inherent moral

worth can combat this violence rothbart and other contributors showcase various examples of this tug of war in the us including the politics of race and class in the 2016 presidential campaign the dehumanizing treatment of people with mental disabilities and destructive parenting styles that foster cycles of humiliation and emotional pain
