this book discusses recent brain research and the potentially dangerous dual use applications of the findings of these research projects the book is divided into three sections part i examines the rise in dual use concerns within various state s chemical and biological non proliferation regime s during this century as well as the rapid technologically driven advances in neuroscience and the associated possible misuse considerations in the same period part ii reviews the brain research projects in the eu usa japan china and several other countries with regard to their objectives achievements and measures to deal with the problem of dual use part iii assesses the extent to which the results of this civil neuroscience work which is intended to be benign are being and could be protected against future hostile applications in the development of novel chemical and biological weapons

capital punishment is one of the more controversial subjects in the social sciences especially in criminal justice and criminology over the last decade or so the united states has experienced a significant decline in the number of death sentences and executions since 2007 eight states have abolished capital punishment bringing the total number of states without the death penalty to 19 plus the district of columbia and more are likely to follow suit in the near future nebraska reinstated its death penalty in 2016 worldwide 70 percent of countries have abolished capital punishment in law or in practice the current trend suggests the eventual demise of capital punishment in all but a few recalcitrant states and countries within this context a fresh look at capital punishment in the united states and worldwide is warranted the routledge handbook on capital punishment comprehensively examines the topic of capital punishment from a wide variety of perspectives a thoughtful introductory chapter from experts bohm and lee presents a contextual framework for the subject matter and chapters present state of the art analyses of a range of aspects of capital punishment grouped into five sections 1 capital punishment history opinion and culture 2 capital punishment rationales and religious views 3 capital punishment and constitutional issues 4 the death penalty s administration and 5 the death penalty s consequences this is a key collection for students taking courses in prisons penology

criminal justice criminology and related subjects and is also an essential reference for academics and practitioners working in prison service or in related agencies

two oversimplified narratives have long dominated news reports and academic studies of china s internet one lauding its potentials to boost commerce the other bemoaning state control and measures against the forces of political transformations this bifurcation obscures the complexity of the dynamic forces operating on the chinese internet and the diversity of internet related phenomena china and the internet analyzes how chinese activists ngos and government offices have used the internet to fight rural malnutrition the digital divide the covid 19 pandemic and other urgent problems affecting millions of people it presents five theoretically informed case studies of how new media have been used in interventions for development and social change including how activists battled against covid 19 in addition this book applies a communication for development approach to examine the use and impact of china s internet although it is widely used internationally in internet studies communication for development has not been rigorously applied in studies of china s internet this approach offers a new perspective to examine the internet and related phenomena in chinese society
