the history of anatomy has been the subject of much recent scholarship this volume shifts the focus to the many different ways in which the function of the body and its fluids were understood in pre modern european thought contributors demonstrate how different academic disciplines can contribute to our understanding of physiology and investigate the value of this category to pre modern medicine the book contains

individual essays on the wider issues raised by physiology and detailed case studies that explore particular aspects and individuals it will be useful to those working on medicine and the body in pre modern cultures in disciplines including classics history of medicine and science philosophy and literature contributors include barbara baert marlen bidwell steiner véronique boudon millot rainer brömer elizabeth craik tamás demeter valeria gavrylenko hans l haak mienneke te hennepe sabine kalff rina knoeff sergius koderia liesbet kusters karine van t land tomas macsotay michael mcvaugh vivian nutton barbara orland jacomien prins julius rocca catrien santing daniel schäfer emma sidgwick frank w stahnisch diana stanciu michael stolberg liba taub fabio tutrone katrien vanagt and marion a wells

abraham lincoln never said you cannot fool all the people all the time thomas jefferson never said that government is best which governs least and horace greeley never said go west young man in they never said it paul boller jr and john george examine hundreds of misquotations incorrect attributions and blatant fabrications outlining the origins of the quotes and revealing why they should be consigned to the historical trashcan many of the misquotes are quite harmless some are inadvertent misquotes that have become popular shakespeare actually said the best part of valor is discretion others the inventions of reporters embellishing a story franklin roosevelt never opened a speech to a dar group with the salutation my fellow immigrants but some of the quotes such as charles darwin s supposed deathbed recantation of evolution are blatantly dishonest and falsify the historical record and others are chillingly vicious filled with virulent racial and religious prejudices that completely distort the views of the person supposedly quoted and spread distrust and hatred among the gullible these include the forged remarks attributed to benjamin franklin that jews should be excluded from america and the fabricated condemnation of catholics attributed to lincoln an entertaining and yet thought provoking book they never said it sorts out a great deal of history and sets it right going beyond a mere catalog of popular misconceptions to reveal how conservatives and liberals atheists and evangelists all have at times twisted and even invented the words of eminent figures to promote their own ends it is the ultimate debunking reference a perfect complement to handbooks of quotations

andy till was the youngest of nine children and suffered years of physical and mental abuse at the hands of his parents he started boxing at 11 this is till s harrowing and inspiring story of his fight for more than a title

finally the text includes a very thought provoking chapter on the bioethics of these new advances and applications of today s world of biotechnology which stimulates the student to think rather than memorize book jacket

these poems are songs of the soul celebrations of darkness and light doubt and belief

nanomaterials for sensing and optoelectronic applications explores recent trends in nanomaterials and devices for chemical and biosensing applications the synthesis properties and applications of metal oxide nanostructures as well as two dimensional layered materials are covered along with the fabrication of optoelectronic devices such as chemical sensors biosensors core shell nanostructures based surface enhanced raman spectroscopy sers substrates luminescent nanoparticles memory devices and thin film transistors aiming at researchers in these respective areas the fundamental principles and mechanisms of the optoelectronic phenomena behind every application mentioned are covered and comprehensively explored the book will be helpful in solving problems related to the synthesis and growth of various nanostructures the application of these materials for various devices and to understand how a specific synthesis route promotes a specific application outlines the fundamental principles and mechanisms behind chemical sensing bio sensing thin film transistor devices and memory devices offers a detailed description on the synthesis of 2d materials and oxide nanostructures with thin films included assesses the major properties of nanomaterials that make them good sensing agents

this handbook offers an analysis of asian diaspora and development and explores the role that immigrants living within diasporic and transnational communities play in the development of their host countries and their homeland bringing together an array of interdisciplinary scholars from across the world the handbook is divided into the following sections development potential of asian diasporas diaspora homeland and development gender generation and identities soft power mobilization and development media culture and representations presenting cutting edge research on several dimensions of diaspora and development routledge handbook of asian diaspora and development provides a platform for further discussion in the fields of migration studies diaspora studies transnational studies race relations ethnic studies gender studies globalization asian studies and research methods

in a progressive and systematic approach to communication and always through an interdisciplinary and cross cultural perspective this first volume presents culture as an intricate grid of sensible and intelligible sign systems in space and time identifying the semiotic and interactive problems inherent in intercultural and subcultural communication according to verbal nonverbal cultural fluency the author lays out fascinating complexity of our direct and synesthesis sensory perception of people and artifactual and environmental elements and its audible and visual manifestations through our speaking face to then acknowledge the triple reality of discourse as verbal language paralanguage kinesics which is applied through two

realistic models a for a verbal nonverbal comprehensive transcription of interactive speech and b for the implementation of nonverbal communication in foreign language teaching the author presents his exhaustive model of nonverbal categories for a detailed analysis of normal or pathological behaviors in any interactive or noninteractive manifestation and based on all the previous material his equally exhaustive structural model for the study of conversational encounters which suggests many applications in different fields such as the intercultural and multisystem communication situation developed in simultaneous or consecutive interpreting 956 literary quotations from 103 authors and 194 works illustrate all the points discussed
