the british army's campaigns in egypt and the sudan from 1882 to 1899 were among the most dramatic and hard fought in british military history in 1882 the british sent an expeditionary force to egypt to quell the arabic revolt and secure british control of the suez canal its lifeline to india the enigmatic british major general charles g gordon was sent to the sudan in 1884 to study the possibility of evacuating egyptian garrisons threatened by muslim fanatics the dervishes in the sudan while the dervishes defeated the british forces on a number of occasions the british eventually learned to combat the insurrection and ultimately largely through superior technology and firepower vanquished the insurgents in 1898 british operations in egypt and the sudan a selected bibliography enumerates and generally describes and annotates hundreds of contemporary current and hard to find books journal articles government documents and personal papers on all aspects of british military operations in egypt and the sudan from 1882 to 1899 arranged chronologically and topically chapters cover the various campaigns focusing on specific battles leading military personalities and the contributions of imperial nations as well as supporting services of the british army this definitive volume is an indispensable reference for researching imperialism colonial history and british military operations leadership and tactics

in the years following nasser's rise to power the demographic landscape and the economy of egypt underwent a profound change related to the migration of diverse communities that had a distinguished role in egyptian economy from egypt these shifts have mostly been discussed in the light of postcolonial studies and the nationalisation policies in the wider region najat abdulhaq focuses instead on the role that these minorities had in the economy of pre nasser egypt and by giving special

attention to the jewish and greek communities residing in egypt investigates the dynamics of minorities involved in entrepreneurship and business with rigorous analysis of the types of companies that were set up abdulhaq draws out the changes which were occurring in the political and social sphere at the time this book whilst primarily focused on the economic activities of these two minority communities has implications for an understanding analysis of the political the juridical the intellectual and the cultural trends at the time it thus offers vital analysis for those examining the economic history of egypt as well as the political and cultural transformations of the twentieth century in the region

egypt just before political eruption turns of the century in africa s northeastern corner have been critical moments ushering in overt popular activism in the hope of radical political redirection as this volume s focus on egypt s 19th century fin de siecle demonstrates the end of the 19th century in egypt witnessed crisscrossing and conflicting political currents as well as fluctuating economic geopolitical social conditions demographic conditions and cultural processes like egypt s 20th century fin de siecle much of this ferment was a prelude to the more visible and politically eruptive events of the next decades when egypt s popular resistance burst onto the international scene but its subterranean cast was no less dynamic for that

egypt was the first arabic speaking country to throw off the yoke of turkish rule with an attendant growth in european influence the impact of the west was most obvious in the political constitutional field with the gradual adoption of western patterns of government and political life this book first published in 1953 is the first work to trace the development of parliamentary institutions and political parties in egypt and to consider the extent of western influence on their inception evolution and disruption based on both arabic and european sources it is a comprehensive examination of the subject and is key to the understanding of the development of the modern middle east

the main advantage of this monograph is that it attempts to conduct the most up to date analysis possible of the present political situation in egypt and the middle east therefore we receive a monograph which allows us not only to look at the arab spring from a historical perspective but primarily to reflect on the consequences of these past events that it was hoped would spark political

reforms in arab states and facilitate greater public participation in the system of governance thus this publication allows the verification of many of the judgments and opinions expressed during the arab spring on the possible direction of development of the political processes initiated by the massive social revolts in arab countries
