1st flap copy several years ago while i was rounding at one of the brigham and women s
hospital nurseries a new father shared a funny story with me early the previous morning
this new father went to the hospital lobby in search of coffee and bagels while waiting
in line at the coffee shop the father noticed a man enter the lobby he was struck by the
odd appearance of this man in the midst of a brutally cold new england winter this man
was dressed in a bicycle racing shirt shorts ski socks pulled up to his knobby knees
ankle weights a hos pital id badge around his neck and a propeller att ached to the top

of his bicycle helmet when he returned to his wife's hospital room he told her about his experience this new dad worked in the human services field and was very impressed that the hospital was so progressive as to hire such an obviously mentally challenged person about ten minutes passed when the new parents heard a loud knock on the hospital room door to their surprise shock astonishment and horror the same man walked into the room complete with the propeller helmet shorts ski socks ankle weights now the man had a stethoscope around his neck and was pushing a portable crib with their new baby greeting the shocked and befuddled new parents the man proudly announced his arrival hi i'm dr heller i'm your pediatrician and am here to examine your baby dr dan was without a doubt the most unique charismatic and outgoing individual who one will ever meet as one mother remarked to me you will always remember the first time you met dr dan bruce bunnell md dr heller's partner of 15 years at centre pediatrics told this story at a memorial service for dr heller in 2005 2nd flap having dr heller for a doctor was like having mary poppins for a nanny parent sara b dr dan was an original that's the only way i know how to put it he is such a huge part of our family history that memories keep flooding in for example when our daughter finally slept through the night after months of disturbing our sleep my husband and i were not only shocked as new parents we were also worried that her brand new sleep pattern might signal a serious medical problem dr dan was on when i called and i will never forget how he questioned me closely about symptoms and listened very carefully to all i said then as i hung on to every word of diagnosis he could provide for me he slowly explained that mrs l is what we in the medical profession refer to as a blessing parent susan l

it is arguably the most common theme in abdl fiction becoming a baby again perhaps forever and perhaps completely so for many adult babies the idea of being able to give into our wishes and desires completely and without restriction is a wonderful concept and one that grabs our attention for the vast majority of adult babies the expression of our inner infant is complicated by endless compromises and limits on what we can actually do our partners limit us our finances limit us social acceptance and the lack thereof limits us friends employment family and other issues limit us but fiction can overcome all of these in fiction we can bend the rules of probability break the bounds of social norms and erase the limits that otherwise keep us from expressing our inner infancy the way we wish in these three books you will read of adults that become complete babies once more if they are not originally completely willing to become babies again they quickly discover the joys the peace and comfort of nappies baby clothes bottle feeds and baby toys infancy is entrancing to almost everyone but for those special people adult babies infancy is only a nappy change away and stories of grownups reverting to babyhood is less fiction than an innate desire that we express on the pages of a book enjoy your stay in the world of refreshing infancy enjoy nappies and rubber pants
