a text written in conversational style designed to look at what the bible says about psychological topics such as personality the mind brain connection states of consciousness self esteem etc because psychology deals with the

psychological spiritual part of man the bible has much to say about it given that god created the mind and behavior which is the basis of psychology it only behooves us to study this realm of man that reflects god loaded with hundreds of scripture references the in depth look at what the bible says about thinking and behavior helps build a basis for studying psychology the book begins with presuppositions moves to a definition of what integration means to the author and then provides insight for a christian perspective of the psychological makeup of man all of this is intended to set the foundation for christian psychological study the book then weighs in on certain psychological topics and runs those teachings through a biblical grid

based on chute s award winning maclaboratory for psychology program this interactive software for cd rom on the macintosh and windows allows users to view authentic video clips of interviews with clients work through diagnostic criteria and use dsm iv decision trees to diagnose a variety of clinical cases in addition users can explore animations on difficult to grasp concepts and use multimedia features including an interactive glossary text graphics and movies

this new edition merges the rigor of science with a broad human perspective to provide a state of the art introduction to psychology from vivid presentation and intense attention to detail to research based study aids and media learning tools the inviting authorial voice of david myers speaks to the life experiences of all students

this study presents a student friendly introduction to the principal research methodology techniques of psychology using a narrative approach the text explains the complexities of research and the vital role it has played in the development of the field

presents diverse applied issues and different areas of applied research in sport psychology this handbook represents science related practice perspectives from different continents and cultures it provides a framework for knowledge founded practices of psychological services to targeted samples within the sport and exercise domains

this book presents personality from the perspective of existing research it provides an overview of personality research and demonstrates the relationship between research and real individuals readers are encouraged to explore the relationship between the research and their own personalities it also introduces primary source literature in personality psychology by covering the content methods and issues in the journals with minimal jargon personality psychology the science of individuality presents content on its own merits rather than forcing it to fit existing theories readers avoid the sometimes inaccurate connections to historical theories found in other books on personality the

book also includes discussions often neglected in other books such as entire separate chapters on intelligence and cognitive style the unconscious and evolutionary personality psychology readers will learn important areas in enough depth to appreciate the issues and complexities the book always attempts to make clear why a particular study is important this may facilitate the readers ability to study the subject further chapter two includes a short personality questionnaire designed to measure the big 5 factors since discussions of methodology refer back to the big 5 factors throughout the book readers benefit by having a personal involvement through their scores on the questionnaire it may also help to make some of the material personally relevant a valuable book for any reader interested in understanding the existing research into personality or who wishes to understand more about his or her own personality
