one of the most controversial issues in our society today especially within evangelicalism is that of the creation evolution debate over the past few decades fundamentalist apologists like ken ham of the young earth creationist organization answers in genesis have made a career convincing people that the age of the earth and the historicity of genesis 1 11 are not just bedrock fundamental tenets of the christian faith but are also crucial fronts in the culture war in the heresy of ham joel edmund anderson convincingly shows that not only are the yecist claims of ken ham unbiblical and unscientific but they have sowed the seeds of strife and division within countless christian communities he should know he lost his job as a biblical worldview teacher at a small evangelical school over the issue of yecism anderson's ultimate message is simple regardless of your position regarding evolution or the interpretation of genesis 1 11 they

are not fundamental to the christian faith and should not be used as battlefronts in the culture war if you have always had questions about the creation evolution debate the claims of yecism and the way genesis 1 11 should be interpreted the heresy of ham is a tremendous resource for anyone struggling coming to grips with these issues

in times of increasing challenges to the western idea this book illuminates how russian and eu foreign policy discourses interact while official russian and eu articulations on issues of sovereignty human rights and the shared neighbourhood diverge greatly they are not articulated in isolation but are entangled and condition each other to understand this entanglement this book approaches the relationship between russia and the eu as an intersubjective one a social context where diverging interpretations of the world struggle for hegemony its theoretical framework marries poststructuralist thought with insights from critical approaches to hegelian recognition dialectics based on an extensive and systematic empirical discourse analysis of russian and eu foreign policy texts this study draws a detailed picture of the intensifying discursive dynamics accompanying the deteriorating relationship between brussels and moscow it shows how neither the eu s nor russia s foreign policy articulation has changed substantially the interaction pattern continues to be an asymmetrical one with russia s articulations much more conditioned by the eu s discourse than vice versa the book thus argues that the eu is more independent in sovereignly articulating an interpretation of the world whereas russia continues to face constraints in the formulation of an autonomous political project with its novel and innovative conceptual framework this book furthers the theoretical scholarship on poststructuralism in international relations it addresses all scholars interested in poststructuralist enquiries and will be of great value to students and scholars of russian foreign policy and the eu

insightful and entertaining becoming beyoncē the untold story is the first authoritative biography of the most famous woman in the world today and a must have for the bey hive she s adored by her millions of fans writes and performs songs that move and inspire but beyoncē is truly known by very few now highly acclaimed biographer j randy taraborrelli reveals the woman behind the star he takes us from a childhood spent performing in talent shows to finding worldwide success with her group destiny s child managed by her father matthew beyoncē s first solo album dangerously in love went straight to number one and she has to date released a total of five albums which have sold 75 million copies beyoncē prefers to keep her personal life with husband jay z and their children carefully under lock and key she may be a top performer fashion idol and business mogul in her own right but fame has come at personal sacrifice and with private heartbreak based on exhaustive research including exclusive interviews with those who have played pivotal roles in her life and career the book reveals the hard earned lessons queen bey has learned about love life loyalty and family

most parents would never consider dispensing deadly addictive street drugs to their children but if a trusted physician writes a prescription for an fda approved schedule 2 medication for their two year old based on some questionable mental health screening those unwary parents do not question or object despite side effect warnings regularly revealed during tv ads parents frequently fail to take those warnings seriously perhaps presuming that the side effects are happenstance or rarely occur over the decades because

organized psychiatry represented by the american psychiatric association apa convened numerous consensus panels that designed hundreds of non biologically based disorders for its diagnostic and statistical manual of mental disorders dsm especially suitable for the pill for every ill pharmaceutical industry that conceivably already had many profitable solutions for the disorders in the pre production process the consequences have been disastrous with no discernable end in sight some people taking prescription drugs or withdrawing from them have perpetrated school mall and public shootings that is in addition to thousands of suicides that the public never hears about unless the victim is a well known public figure like robin williams just the military related suicide rate is 8 000 per year untold numbers of these are the result of the psych drug cocktails doled out by psychiatrists working for the va the government is big pharmas largest customer in addition to the homicides and suicides irreversible brain damage results from drug remedies to temporary problems that might have been easily resolved through compassionate interaction and talk therapy despite the claims that drugs were not a factor in the sandy hook mass murders certain circumstances provide a different picture adam lanza always a unique individual changed from being a geeky weird kid to being a mass murderer not of people his own age but of beautiful vulnerable children feeling secure in their classrooms in a sleepy bedroom community in connecticut

the interdisciplinary studies between neuroscience and information science have greatly promoted the development of these two fields the achievements of these studies can help humans understand the essence of biological systems provide computational platforms for biological experiments and improve the intelligence and performance of the algorithms in information science this research topic is focused on the computational modeling of visual cognition body sense motor control and their integrations firstly the modeling and simulation of vision and body sense are achieved by 1 understanding neural mechanism underlying sensory perception and cognition and 2 mimicking accordingly the structures and mechanisms of their signal propagation pathways the achievement of this procedure could provide neural findings for better encoding and decoding visual and somatosensory perception of humans and help robots or systems build humanoid robust vision body sensing and various emotions secondly the modeling and simulation of the motor system of the primate are achieved by mimicking the coordination of bones muscles and joints and the control mechanisms of the neural system in the brain and spinal cord this procedure could help robots achieve fast robust and accurate manipulations and be used for safe human computer interaction finally by integrating them more complete and intelligent systems robots could be built to accomplish various tasks self adaptively and automatically
