a rich deep moral view of fiction and life the lessons from this book were essential to my development as an artist brandon taylor at her death in 1964 o connor left behind a body of unpublished essays and lectures as well as a number of critical articles that had appeared in scattered publications during her too short lifetime the keen writings comprising mystery and manners selected and edited by o connor s lifelong friends sally and robert fitzgerald are characterized by the directness and simplicity of the author s style a fine tuned wit understated perspicacity and profound faith the book opens with the king of the birds her famous account of raising peacocks at her home in milledgeville georgia also included are three essays on regional writing including the fiction writer and his country and some aspects of the grotesque in southern fiction two pieces on teaching literature including total effect and the 8th grade and four articles concerning the writer and religion including the catholic novel in the protestant south essays such as the nature and aim of fiction and writing short stories are widely seen as gems this bold and brilliant essay collection is a must for all readers writers and students of modern american literature

offers pedagogical techniques for teaching the works of flannery o connor including considerations of race whiteness class religion disability gender technology the environment and the post world war ii period gives syllabus suggestions for undergraduate and graduate courses in american literature southern literature creative writing and women s studies

this literary critical study counters the usual tendency to segregate southern literature from african american literary studies noting that william faulkner and flannery o connor are classified as southern writers whereas zora neale hurston and richard wright are considered black authors timothy p caron argues for an integrated study of the south s literary culture he shows that the interaction of southern religion and race binds these four writers together caron broadens our understanding of southern literature to include both white and

*african american voices analyzing o connor s wise blood faulkner s light in august hurston s moses man of the mountain and wright s uncle tom s children caron shows that these writers share an intertwined concern for issues of race and religion these two significant components of southern culture form the intertextual network that binds together such seemingly disparate texts these authors not only interact among themselves in acknowledged and unacknowledged ways but also with the south s discursive practices most particularly caron sees common struggles over the word as he investigates how these writers use the bible in their understandings of race and religion in the american south while all four authors argue for the centrality of the bible in both the black and white southern experience each offers a different view of how this iconic text has shaped southern culture and its literature*

*flannery o connor was a writer of extraordinary power and virtuosity her strong supple prose blends humor pathos satire and grotesquerie which leads the reader to the evil at the center of the self s labyrinth there she confronts that evil with originality and power pulling the reader into consideration of the terrifying dependencies of love in the recesses of the heart this study focuses on flannery o connor s sense of the coincidence of the eternal and cosmic with worldly time and place the eternal crossroads and how that sense controls and infuses her fiction from an examination of various influences upon miss o connor s work pierre teilhard de chardin mauriac nathaniel west and hawthorne the authors consider her novels and stories as well as several stories never collected their textual analysis shows that her structures images motifs and symbols became vehicles for anagogical meaning as she progressed from early promise to artistic fulfillment considering miss o connor s own comments on her writing the authors illuminate some frequently misunderstood features of her work such as her grotesques and her stress on death and violence in so doing they make an important contribution to our understanding of how flannery o connor arrived at the eternal crossroads*

*frustrated by years of neglecting her creativity colleen warren finally vowed in a new year s resolution to do something creative every day a decision that literally transformed her life this book tells her story and reveals the ideas mindsets habits and practices she adopted that enabled that change the first verb offers the encouraging message that creativity is every person s possession by virtue of being created in the image of a creative god readers will be inspired by the book s celebration of god s own creative attributes spiritually strengthened by its theological affirmation of creativity motivated by exploring the benefits of creativity and the qualities of creative people and energized by engaging in activities that enlarge creativity*

*throughout his philosophical career eric voegelin had much to say about literature in both his published work and his private letters many of his most trenchant comments regarding the analysis of literature appear in his correspondence with critic robert heilman and through his familiarity with that exchange charles embry has gained extraordinary insight into voegelin s literary views the philosopher and the storyteller is the first book length study of the literary dimensions of voegelin s philosophy and the first to use his philosophy to read specific novels bringing to bear a thorough familiarity with both voegelin and great literature embry shows that novels like myths philosophy and religious texts participate in the human search for the truth of existence and that reading literature within a voegelinian framework exposes the existential and philosophical dimensions of those works embry focuses on two key elements of voegelin s philosophy as important for reading literature metaxy the in between of human consciousness and metalepsis human participation in the community of being he shows how voegelin s philosophy in general is rooted in literary symbolic interpretation and therefore provides a foundation for the interpretation of literature and finally he explores voegelin s insistence that the soundness of literary criticism lies in the consciousness of the reader embry then offers voegelinian readings that vividly illustrate the principles of this approach first he considers graham swift s waterland as an example of the human search for meaning in the modern world then he explores the deformation and recovery of reality in heimito von doderer s long and complex novel the demons and finally he examines how flannery o connor s the violent bear it away mythically expresses the flux of divine presence in what voegelin calls the time of the tale the philosopher and the storyteller unites fiction and philosophy in the common quest to understand our nature our world and our cosmos a groundbreaking exploration of the connection between voegelin and twentieth century literature this book opens a new window on the philosopher s thought and will motivate readers to study other novels in light of this approach*
