the ethics of governance moral limits of policy decisions offers a toolbox drawn from normative ethics which finds applications in public governance primarily focusing on policy making and executive action it includes ethical concepts and principles culled from different philosophical traditions ranging from more familiar western theories to non western ethical

perspectives thereby providing a truly global decolonized and expanded normative lens on issues of governance the book takes a unique and original approach it demonstrates the use of the ethical toolbox in the context of actual examples of governance challenges taking three major case studies each representing an aspect of human human and or human nature and or human animal relationship the book attempts to show the significance of public practical reasoning in policy decisions with the aim of arriving at reasonable responses acknowledging the challenges that policy makers often face the book highlights the fact that policy making is hardly an exercise yielding a black or white solution rather it involves finding the most reasonable normative outcome course of action in a given situation especially employing an expanded understanding of values including well being sustainability interdependence and community this effort that helps bridge the gap between ethical theorists and policy practitioners exemplifies the necessary role of engaged philosophy in public governance in the major case studies boxes offer facts and figures along with pertinent ethical questions that have been raised and discussed aiming to aid the engagement of a diverse audience including non philosophy readers each chapter also includes boxes containing examples shorter case studies at a glance charts and tables with comprehensive ethical tools for a quick recap

this book reassesses the seminal work of wilhelm wundt by discussing the history and philosophy of psychology it traces the pioneering theorist s intellectual development and the evolution of psychology throughout his career the author draws on little known sources to situate psychological concepts in wundt s philosophical thought and address common myths and misconceptions relating to wundt s ideas the ideas presented in this book show why wundt s work remains relevant in this era of ongoing mind brain debate and interest continues in the links between psychology and philosophy featured topics include theoretical and philosophical foundations of wundt s early work in scientific psychology wundt s conception of scientific philosophy in relation to his theory of knowledge the epistemological dimensions of wundt s final project in scientific psychology wundt and the philosophical foundations of psychology is a valuable resource for researchers professors and graduate students in cognitive and related psychology and philosophy disciplines

this comprehensive work provides an up to date survey of social and political philosophy charting its history and key figures and movements and addressing enduring questions as well as contemporary research

a phenomenological and spiritual investigation of anomalous mental experiences from a psychiatric perspective psychosis is generally viewed as a psychopathological and often incomprehensible mental disorder of biological cause in his book brian

spittles argues that this represents a rather limited view and that a psychospiritual investigation of psychosis may enable a better understanding of its nature and determinants his aim is not to negate the discipline of psychiatry but to demonstrate the viability and efficacy of incorporating psychospiritual considerations into psychosis research within these pages spittles challenges several core psychiatric beliefs and calls for the discipline to extend its investigative parameters beyond the limited epistemological bounds of materialism the book uses an open ended heuristic approach that enables the systematic examination and critical appraisal of views on psychosis across the materialist to metaphysical spectrum this is structured in four focal settings that sequentially examine the construal of psychosis within different paradigms of psychospiritual understanding which provide a historical overview of evolving understandings of psychosis within the tradition of psychiatry in which psychospiritual matters are generally not considered

this encyclopedia is the most comprehensive and up to date source of reference for sustainability in business and management it covers both traditional and emerging concepts and terms and is fully international in its scope more than 700 contributions of internationally renowned experts provide a definitive access to the knowledge in the area of sustainable and responsible management all actors in the field will find reliable and up to date definitions and explanations of the key terms and concepts of management in this reference work the encyclopedia of sustainable management represents all aspects of management and business conduct it takes sustainability as a management concept that gives due credit to the complexity and diverging constraints in which businesses and corporations act today and it emphasizes and focuses approaches that help ensure that today s management decisions and actions will be the basis for tomorrow s prosperity

the moral responsibilities of companies is a philosophical analysis of the question of whether companies can be held morally responsible for the harms they create and what implications such a view has on the moral position of employees and shareholders in these companies

this timely book draws on unique african experiences to explore the intersection between mental health and african communitarianism in the context of covid 19 giving voice to the perspectives of vulnerable populations facing pre existing challenges such as depression anxiety and stress advancing knowledge and contributing to the global debate about the effects of the pandemic on the psychological well being of african people chapters critique the role of media information misinformation and disinformation during this period on individual and community based mental health using a holistic approach the book highlights the need to prioritise the localising of mental health systems and clinical services to provide a

better standard of care and comprehensive context specific mental health interventions that consider the heterogeneity within and between african regions the book demonstrates through nuanced evidence and analysis that communitarian perspectives allow african societies to balance collective solidarity with individual well being to benefit overall mental health ultimately drawing on communal values and localised knowledge to cultivate resilience to fight the psychosocial impacts of covid 19 in africa the book will be of interest to scholars postgraduate students and researchers exploring psychology philosophy of mental health and public health policy more broadly as well as and cultural studies and the sociology of pandemics the open access version of this book available at taylorfrancis com has been made available under a creative commons attribution non commercial no derivatives cc by nc nd 4 0 license

rather than telling students what to think about moral issues this new text teaches students how to think for themselves using real world examples and vivid illustrations drawn from other disciplines it challenges preconceived notions about morality and demonstrates why ethics matters a companion volume readings in moral philosophy provides primary selections that amplify issues discussed in the text and extends them to problems in applied ethics

isaiah berlin is widely acknowledged as a major figure in twentieth century political philosophy and the history of ideas his famous oxford inaugural lecture two concepts of liberty especially the last crucial section entitled the one and the many has provoked a vast secondary literature so it is surprising that until now there has been no substantial critical reader dedicated to his work editors george crowder and henry hardy have admirably filled this need with this stimulating new volume which provides a systematic and comprehensive treatment of the main aspects of berlin s work the essays all but two of which are newly commissioned critically examine berlin s work across its whole range including his treatment of marx russian thinkers jewish themes liberty pluralism the enlightenment and counter enlightenment nationalism history and religion the contributors are jonathan allen university of illinois urbana champaign shlomo avineri hebrew university jerusalem terrell carver university of bristol joshua l cherniss harvard and oxford universities george crowder flinders university william a galston university of maryland graeme garrard cardiff university ryan hanley marquette university henry hardy oxford university michael jinkins austin presbyterian theological seminary david miller oxford university mario ricciardi university of milan and andrzej walicki university of notre dame complete with a valuable bibliography this outstanding collection of recent scholarship on a seminal thinker shows the continuing relevance and importance of berlin s many contributions to the understanding of our contemporary predicament

this new reader provides a more diverse selection of philosophers and ethical issues than any other book of its kind used on its own or as a companion to jonathan wolff s an introduction to moral philosophy it offers an ideal collection of important readings in moral theory and compelling issues in applied ethics smart pedagogy and an affordable price make it an outstanding value for students

the revised edition of this highly successful text provides a clear and accessible introduction to some of the most important questions of political philosophy organized around major issues wolff provides the structure that beginners need while also introducing some distinctive ideas of his own

people are my landscape isaiah berlin liked to say and nowhere is the truth of this observation more evident than in his letters he is a fascinated watcher of human beings in all their variety and revels in describing them to his many correspondents his letters combine ironic social comedy and a passionate concern for individual freedom his interpretation of political events historical and contemporary and his views on how life should be lived are always grounded in the personal and his fiercest condemnation is reserved for purveyors of grand abstract theories that ignore what people are really like this second volume of berlin s letters takes up the story when after war service in the united states he returns to life as an oxford don against the background of post war austerity the letters chart years of academic frustration and self doubt the intellectual explosion when he moves from philosophy to the history of ideas his growing national fame as broadcaster and lecturer the publication of some of his best known works his election to a professorship and his reaction to knighthood berlin s visits to american universities where he sees mccarthyism at work

discover how developments in information technology are raising new ethical debates information and computer ethics has emerged as an important area of philosophical and social theorizing combining conceptual meta ethical normative and applied elements as a result academic interest in this area has increased dramatically particularly in computer science philosophy and communications departments business schools information and library schools and law schools the handbook of information and computer ethics responds to this growing interest with twenty seven chapters that address both traditional and current issues in information and computer ethics research it is organized into six parts foundational issues and methodological frameworks theoretical issues affecting property privacy anonymity and security professional issues and the information related professions responsibility issues and risk assessment regulatory issues and challenges access and equity issues each chapter written by one or more of the most influential ethicists in their fields of expertise

explains and evaluates the central positions and arguments on the respective issues chapters end with a bibliography that identifies the most important supplementary books and papers available on the topic this handbook provides an accessible yet sophisticated overview of the most important issues we face in information and computer ethics today it is an ideal supplemental text for advanced undergraduate and graduate level courses in information and computer ethics and is also of interest to readers who are involved in library science computer science or philosophy

cogen international law ghent u belgium presents an overview of the history and current status of international law chapters discuss the sources of international law the history of international law states and territories the rights and responsibilities of states the global commons international organizations the individual diplomatic and consular law the law of treaties and the laws regarding armed activities the focus of the work is on the straightforward presentation of the principles and rules of international law in these key areas

this book examines the possibility of reconciliation between liberalism and shiite islam by examining two key liberal theories this book shows that secular liberalism is not justifiable in the view of shiite islamic thought yet since the liberal state is tolerant of shiite muslim citizens at the practical level there is no ground for conflict between liberal societies and shiite muslim minorities therefore whilst shiite muslims at home should refrain from constructing the basic structure of their societies in accordance with liberal theory shiite muslim minorities of liberal societies should accept the basic structure of these societies in return for receiving freedoms protections and opportunities

international bodies have called for a shift toward more comprehensive ecosystem based marine management this book is a guide to utilising this new approach

an international journal focusing on third world development problems
