rewriting franco's spain marcel proust and the dissident novelists of memory proposes a new reading of some of the most culturally significant and closely studied works of spanish memory fiction from the past seventy years it examines the influence of french writer marcel proust on fiction concerning the spanish civil war and franco's dictatorship by carmen laforet juan goytisolo juan benet carmen martín gaite jorge semprún and javier marías it explores the ways in which *À la recherche du temps perdu* has been

instrumental in these authors works galvanizing their creative impetus shaping their imaginative act and guiding their adversarial stance toward franco s regime this book illustrates how these writers use proustian themes and techniques and thereby enhances our understanding of the function of memory and fictional creation in some of the most important milestones in contemporary spanish literature rewriting franco s spain argues that an appreciation of proust s pervasive influence on spanish memory writing obliges us to reconsider the notion that franco s regime maintained a rigid stranglehold on imported culture capturing the richness of spanish novelists contact with literature produced outside of spain it challenges the prevailing scholarly tendency to focus on the novelists immediate sociopolitical concerns there is more to these texts than a simple testimony of the brutality and hardship of the civil war and life under franco by illuminating the subversive nature of spanish novelists use of a proust inspired practice of self writing rewriting franco s spain seeks to readjust some of the ways we view the role of novelists living during the regime and in its wake it advocates a conception of novelists as dissidents teasing out the seditious undercurrent of their cultivation of self writing and examining how they disputed the regime s ideas about what culture should look like the preconception that the development of spanish literature under franco was stunted because spaniards were prevented from reading works considered an affront to national catholic sensibilities is cast aside as is the notion that spain was isolated from narrative developments elsewhere rewriting franco s spain ultimately reveals the centrality of proust s monumental novel in the evolution of contemporary spanish literature

nada has been acclaimed as one of the best accounts of life in post civil war spain it is a work that reflects the psychological and sociological effects of war on a society particularly on its youth it also represents the bittersweet reality of life the price paid and the sacrifices made for personal freedom its setting is in 1939 barcelona but its story is universal for it depicts the hopes the anxieties and the frustrations of our time portrayed by a young woman in search of her own identity in a society rocked by changing mores this novel is imbued with such an array of expressionistic impressionistic and even some surrealistic descriptions that a literary critic states the finished product is a work of art not a slice of life in reality it is both of these although *nada* is narrated in the first person laforet compensates for the limitation of a first person narration by interposing dialogues among characters thus giving the reader insight into matters that would otherwise be unknown

with an eye to the rather insular particular development and definition of feminism in spain the author recognizes that the twentieth century has been a period of great change for peninsular women authors her study of the creative compromises wrought by severe oppression followed by relative liberation all within the context of spain's specific religious and regional influences illustrates the unique positioning of these women writers as shown through their female characters while this is reflection of the current scholarship in women's studies examining the feminist resonance of the construction of female identity through texts written by women about women it is one that is in its first stages of development in spanish criticism and has been primarily author specific ellen c mayock's research provides a more panoramic view so to speak facilitating an overview of progression between trends as opposed to a singular progression of a single author within the context of era a very positive move that allows for full comprehension book jacket
