now in its 11th edition this text has become an indispensable information resource for business government and academia every chapter has been completely rewritten to reflect the latest developments and market statistics

state of the art methods for drug safety assessment responding to the increased scrutiny of drug safety in recent years quantitative evaluation of safety in drug development design analysis and reporting explains design monitoring analysis and reporting issues for both clinical trials and observational studies in biopharmaceutical product deve

the definitive text on women in photography now in an affordable paperback edition

featuring over seventy images from the heroic age of space exploration through

astronaut eyes presents the story of how human daring along with technological ingenuity allowed people to see the earth and stars as they never had before photographs from the mercury gemini and apollo programs tell powerful and compelling stories that continue to have cultural resonance to this day not just for what they revealed about the spaceflight experience but also as products of a larger visual rhetoric of exploration the photographs tell us as much about space and the astronauts who took them as their reception within an american culture undergoing radical change throughout the turbulent 1960s this book explores the origins and impact of astronaut still photography from 1962 to 1972 the period when human spaceflight first captured the imagination of people around the world photographs taken during those three historic programs are much admired and reprinted but rarely seriously studied this book suggests astronaut photography is particularly relevant to american culture based on how easily the images were shared through reproduction and circulation in a very visually oriented society space photography's impact at the crossroads of cultural studies the history of exploration and technology and public memory illuminates its continuing importance to american identity

heart failure second edition has been updated to provide the latest advancements in heart failure research supplemented by more than 200 high quality figures and illustrations the book helps cardiologists and emergency care physicians quickly and accurately identify the cause and severity of a patient's cardiac impairment new topics in this edit

marcianus graecus z 454 822 known to homeric scholars as the venetus a is the oldest complete text of the iliad in existence meticulously crafted during the tenth century ce an impressive thousand years old and then some its historical reach is far greater the venetus a preserves in its entirety a text that was composed within an oral tradition that can be shown to go back as far as the second millennium bce and the writings in its margins preserve the scholarship of ptolemaic scholars working in the second century bce and in the centuries following two thousand years later technology offers a new opportunity to rediscover this scholarship and better understand the epic that is the foundation of western literature the high resolution images of the manuscript that accompany these essays were acquired by a multinational team of scholars and conservators in may 2007

for over a decade sachs has pondered the technical ingenuity that brought america the apollo program this text documents the culmination of his research the realization of his own life size space program comprised of three main sculptural elements a flight plan all used during a live demonstration of a lunar

landing

majestic and magical landscapes the soft beauty of fields of flowers the raw cold of winter the works of harald sohlberg combine a romantic perception of nature with a contemporary pictorial language akin to symbolism this volume assembles some 60 paintings in addition to a number of drawings prints and photographs by the artist and grants insight into his conceptual world through his correspondence in particular the mountain world surrounding rondane national park provided harald sohlberg 1869 193 5 with inexhaustible inspiration for countless studies and watercolours which were later incorporated into his landscape pictures this volume places one of his most famous works winter night in the mountains in a new context and casts light on less well known aspects of sohlberg s oeuvre which also includes street scenes for example one characteristic of his works that is particularly attractive is the lack of people in them not least because their traces always appear present this reveals a critical attitude to the modern age and at the same time allows the viewer to become immersed in his or her own stories
