canadian ecopolitics provides a comprehensive overview of the intersection between environmental issues and political processes in canada it explores key concepts historical developments and contemporary challenges in environmental governance highlighting the diverse world views that shape ecopolitical discourse from resource extractivism to deep ecology rosalind warner peter stoett and will greaves analyse canada s role on the global stage as well as the challenges of multilevel governance of natural resources the book traces the country s ecopolitical history from pre colonial times through confederation to modern environmental

movements the book emphasizes the critical relationship between environmental issues and political processes in governing vital resources such as energy water climate oceans and biodiversity making this analysis both timely and essential the authors explore the complex interactions among different levels of governance indigenous perspectives and competing interests that influence canadian environmental policy with a critical focus on the challenges and opportunities within canada s environmental landscape canadian ecopolitics offers valuable insights for students policymakers and engaged citizens aiming to understand and transform this crucial area of governance

every day workers are injured made ill or killed on the job most often workers experience these harms individually and in isolation particular occurrences rarely attract much public attention beyond perhaps a small paragraph in the local newspaper instead these events are normalized this membrane of normalcy however is ruptured from time to time especially after a disaster this edited collection draws together original case studies written by leading researchers in australia canada great britain sweden and the united states that examine the politics of working disasters the essays address two fundamental questions what gets recognized as a work disaster and how does the state respond to one in some instances it seems self evident that a disaster has occurred for example when a mine explodes killing tens or hundreds of workers simultaneously the media and politicians recognize that this is not just a personal tragedy for the families of the victims and that more troubling questions need to be asked about how this could happen in other circumstances however the process that determines what gets recognized as a disaster is much more complicated working disasters addresses the politics of recognition in case studies of the long haul trucking industry repetitive strain injuries and lung disease in miners once it has recognized that a working disaster has occurred the state typically goes beyond its routine responses to the daily toll of work related deaths and injuries inquiries may be initiated to review the adequacy of regulatory systems and laws may be amended sometimes disasters produce meaningful change but often they do not in this text the politics of response is considered in studies of a factory fire the loss of an offshore oilrig lung disease among miners a mine explosion and the prosecution of health and safety offences this book will be of use to occupational health and safety activists and professionals academics and upper year students in industrial relations labour studies labour history law political science and sociology

in the mid 1980s public health officials in north america europe japan and australia discovered that almost half of the hemophiliac population as well as tens of thousands of blood transfusion recipients had been infected with hiv tainted blood this book provides a comparative perspective on the political legal and social struggles that emerged in response to the hiv contamination of the industrialized worlds blood supply it describes how eight nations responded to the first signs that aids might be transmitted through blood and how they falteringly arrived at and finally implemented measures to secure the blood supply the authors detail the remarkable saga of the mobilization of hemophiliacs who challenged the state the medical establishment and even their own caregivers as they sought recompense and justice in the end the blood establishments in almost every advanced industrial nation were shaken in canada the red cross was forced to withdraw from blood collection and distribution in japan pharmaceutical firms that manufactured clotting factor agreed to massive compensation 500 000

per hemophiliac infected in france blood officials went to prison even in denmark where the number of infected hemophiliacs was relatively small the struggle and litigation surrounding blood has resulted in the most protracted legal and administrative conflict in modern danish history blood feuds brings together chapters on the experiences of the united states japan france canada germany denmark italy and australia with four comparative essays that shed light on the cultural institutional and economic dimensions of the hiv blood disaster

introduction to international disaster management fourth edition offers an unbiased global perspective for students and practitioners alike it provides a comprehensive understanding of the disaster management profession covering the varied sources of risk and vulnerability the systems that exist to manage hazard risk and the many different stakeholders involved from individuals to global organizations this text also serves as a reference on scores of disaster management topics including various technological and intentional hazards on international disaster management structures and systems on global humanitarian spending and support and much more taking a real world approach with considerable illustration through case studies and recent and historical disaster events this book prepares students interested in joining the disaster management community to understand the work they will be doing in addition it assists those who already work with the disaster management community by helping them better navigate this complex environment includes sections on the ebola epidemic the nepal earthquake the 2015 2016 western u s wildfires the indonesia palm oil fires hurricanes harvey irma and maria the mexico city earthquake emerging hazards like trash avalanches and more provides a valuable introduction on the groundbreaking sendai framework for disaster risk reduction 2015 2030 signed in march of 2015 along with an explanation of the relationship of this effort to sustainable development goals and the paris agreement explores the importance of global disaster risk reduction covers key terms and chapter summaries as well as instructor resources support learning and instruction
