this book provides a first of its kind analysis of the emerging global hydrogen economy from the vantage point of one of the world s biggest energy providers saudi arabia in 2021 and within the context of the circular carbon economy framework saudi arabia announced its goal to reach net zero carbon emissions by 2060 and produce a substantial amount of clean hydrogen annually by 2030 the kingdom is optimally situated geographically between the major demand markets in europe and north asia from where it can leverage clean hydrogen exports as a potential tool to become a player of strategic importance and successfully diversify its economy under its vision 2030 program more broadly the book charts a course for fossil fuel exporting countries such as saudi arabia to carve a competitive position for themselves over the forthcoming decades using clean hydrogen as a catalyst for the energy transition with contributions from global energy experts the chapters in this book provide a multifaceted analysis of the who what where and why related to clean hydrogen development within and beyond saudi arabia collectively the contributions analyze the countries and regions relevant to saudi arabia in terms of dedicated hydrogen policies projects and approaches that aim to incentivize production and demand in an increasingly carbon constrained world the book is a timely unique and an indispensable resource for practitioners and students of energy geopolitics and climate policy working on hydrogen in academia applied research national government bodies and international organizations the open access version of this book available at taylorfrancis com has been made available under a creative commons attribution non commercial no derivatives cc by nc nd 4 0 license

this is the first comprehensive practical handbook on the topic of environmental social governance esg and its impact on the real estate industry the sustainability megatrend is still in its early stages in the real estate sector and there is a lack of standards practical examples and data the development is very dynamic and sometimes confusing and new complex requirements and regulations are constantly being added the authors an expert team of economists lawyers investors asset managers and engineers provide an overview of national and european regulatory requirements as well as current market developments they show what role esg plays not only in the areas of new construction renovation and real estate management but also in investment processes and real estate valuations contents esg and the real estate market esg and regulatory environment esg and real estate management esg in urban and project development

this book responds to the need to distinguish human creations from those produced by ai it does so by tracing human attributes of authorship and inventorship in statutory requirements for protection and ownership in european copyright and patent laws its main contribution lies in exposing shortcomings in how the laws are applied in the uk germany and france it shows that the human origin of creations is traditionally inferred from their expressive form or technical character given the advancements in ai such inferences are no longer legitimate what is more these shortcomings may eventually lead to granting copyright or patent protection where none is lawfully permitted or sufficiently justified to remedy the situation this book offers doctrinal and conceptual amendments and proposes law reforms to implement them this book guides authorities practitioners and students through the main arguments of the debate concerning copyright and patents for objects entirely or partly generated by ai it also makes original contributions to advance the ongoing academic and policy debates on ai and intellectual property law

If you ally compulsion such a referred Natures Experts book that will have enough money you worth, acquire the extremely best seller from us currently from several preferred authors.
