following on from andrew s a visual history of caravans this new title takes a look at the motorhome s heritage spanning over 100 years the motorhome is a popular leisure vehicle with an ever growing demand in the uk as well as abroad from the early designs often built by one man bands this book shows how the motorhome was to evolve in the 1920s but was to be outsold by the popularity of the touring caravan images from all decades are mainly from the author s own vast archives while some have been loaned and supplied from motorhome industry personnel these pictures demonstrate how the motorhome developed with the advent of smaller chassis cabs from the 1950s major manufacturers such as bedford austin morris and ford covering uk brand motorhomes as well imported models the book shows how different uk tastes were to the imported

makes although not an a z of motorhomes book the author has chosen images that represent as many manufacturers as possible andrew includes some rare images of coachbuilt motorhomes and shows how the motorhome boom began in the mid 1960s with the further development of chassis cab designs in the 70s with brands such as commer toyota and leyland more manufacturers of motorhomes would emerge as the boom carried on caravan s international motorised division was re named autohomes and became the biggest uk manufacturer of coachbuilt motorhomes going on to also be built in germany well known maker dormobile concentrated on campervans though several coachbuilt motorhomes such as the classic looking debonair were produced from those early days a visual history of motorhomes will make interesting reading to motorhome users showing how the leisure vehicle took shape

in this new view on the citroen story automotive aviation writer and design specialist lance cole investigates not just the details of the cars of citroen but the aeronautical and cultural origins that lay behind citroen s form and function the book digs deep into the ethos of automobiles citroen to create a narrative on one of the greatest car manufacturers in history using interviews translations archive documents and specially commissioned photographs the citroen journey is cast in a fresh perspective it explains in detail the influences upon citroen design voisin lefebrve bertonni boulanger mages opron and recent citroen designers such as coco blakeslee and soubirou as well as all the men of the great period of 1920s 1970s expansion cites less well known names of citroen s french engineering design and influence such as cayla gerin giret harmand dargent and others to give a full picture of citroen heritage

a research bulletin for the worldwide automotive industry

history of the electric automobile covers the evolution from the first electric vehicles of the 1880s to the advances of today beginning with early electric vehicle development in england france and the united states this book provides an in depth look at the so called golden age of electric vehicles 1895 1905 demonstrating the technological improvements and business risks of this era this history also explores the dead period of the 1930s 1940s and 1950s and the subsequent re birth of interest in electric vehicles in the early 1960s events which have impacted the development of electric cars since then most notably the electric vehicle act of 1976 are also examined the book also features an appendix section containing such information as a name table of american electric cars the electric vehicle act of 1976 nostalgia and more a glossary and index are also included for more than a century nearly all seers who have predicted the role of electric vehicles in personal transportation have been wrong this book records

what actually happened both within america and internationally ernest h wakefield

hearing that the british red cross were recruiting truck drivers to deliver relief supplies in the active conflict zones of the former yugoslavia roger thought the work sounded interesting what he experienced during his mission with the international committee of the red cross proved to be much more living the realities of humanitarian relief work and witnessing the tragedies of what war could do and did to its civilian victims was life changing roger fowler s rich memoir chronicles the wins and losses joys and heartbreak of providing humanitarian relief to suffering civilians and displaced persons with tenacity determination and humour roger takes the reader with him through his adventures from escorting convoys across front lines to being in the middle of the largest and final battle of the croatian war of independence operation storm

welcomed at end of the 19th century as the solution to the severe problem of horse manure in city streets electric trucks soon became the norm for short haul commercial deliveries though reliable they were gradually replaced by gasoline powered trucks for long haul deliveries although a fleet of electric milk trucks survived in great britain into the 1960s industrial electric vehicles never disappeared from factories and ports during the past decade with the availability of the lithium ion battery the electric truck is back on the road for all payloads and all distances the fourth in a series covering the history and future of electric transport this book chronicles the work of the innovative engineers who perfected e trucks large and small
