this collection of 24 volumes is the first full paperback publication of the standard edition of the complete psychological works of sigmund freud in english

today s clinical social workers face a spectrum of social issues and problems of a scope and severity hardly imagined just a few years ago and an ever widening domain of responsibility to overcome them theory and practice in clinical social work is the authoritative handbook for social work clinicians and graduate social work students that keeps pace with rapid social changes and presents carefully devised methods models and techniques for responding to the needs of an increasingly diverse clientele following an overview of the principal frameworks for clinical practice including systems theory behavioral and cognitive theories psychoanalytic theory and neurobiological theory the book goes on to present the major social crises problems and new populations the social work clinician confronts each day theory and practice in clinical social work includes 29 original chapters many with carefully crafted and detailed clinical illustrations by leading social work scholars and master clinicians who represent the widest variety of clinical orientations and specializations collectively these leading authors have treated nearly every conceivable clinical population in virtually every practice context using a full array of treatment approaches and modalities included in this volume are chapters on practice with adults and children clinical social work with adolescents family therapy and children s treatment groups other chapters focus on social work with communities affected by disasters and terrorism clinical case management cross cultural clinical practice psychopharmacology practice with older adults and mourning and loss the extraordinary breadth of coverage will make this book an essential source of information for students in advanced practice courses and practicing social workers alike

not since anna freud s 1937 book the ego and the mechanisms of defense has any one volume explored this topic as fully as ego mechanisms of defense by george e vaillant by summarizing the latest

empirical studies proposing a universal language of defense mechanisms and demonstrating how various assessment methods can be used in diagnosis case formulation and treatment Dr Vaillant and an interdisciplinary group of contributors provide the groundwork for clinical practice as well as future research in the field

providing a gateway to a new history of modern aesthetics this book challenges conventional views of how art's significance developed in society the 18th century is often said to have involved a radical transformation in the concept of art from the understanding that it has a practical purpose to the modern belief that it is intrinsically valuable by exploring the ground between these notions of art's function Karl Axelsson reveals how scholars of culture made taste morals and a politically stable society integral to their claims about the experience of nature and art focusing on writings by two of the most prolific men of letters in the 18th century Joseph Addison 1672 1719 and the third Earl of Shaftesbury 1671 1713 Axelsson contests the conviction that modern aesthetic autonomy reoriented the criticism and philosophy originally prompted by these two key figures in the history of aesthetics by re-examining the political relevance of Addison and Shaftesbury's theories of taste Axelsson shows that first and foremost they sought to fortify a natural link between aesthetic experience and modern political society

this volume re-examines traditional interpretations of the rise of modern aesthetics in eighteenth century Britain and Germany it provides a new account that connects aesthetic experience with morality science and political society in doing so it challenges long-standing teleological narratives that emphasize disinterestedness and the separation of aesthetics from moral cognitive and political interests the chapters are divided into three thematic parts the chapters in part I demonstrate the heteronomy of eighteenth century British aesthetics they chart the evolution of aesthetic concepts and discuss the ethical and political significance of the aesthetic theories of several key figures namely the third Earl of Shaftesbury David Hume and Adam Smith part II explores the ways in which eighteenth century German and German-oriented thinkers examine aesthetic experience and moral concerns and relate to the work of their British counterparts the chapters here cover the work of Kant Moses Mendelssohn Alexander Gottlieb Baumgarten and Madame de Staël finally part III explores the interrelation of science aesthetics and a new model of society in the work of Goethe Johann Wilhelm Ritter Friedrich Hölderlin and William Hazlitt among others this volume develops unique discussions of the rise of aesthetic autonomy in the eighteenth century in bringing together well-known scholars working on British and German eighteenth century aesthetics philosophy and literature it will appeal to scholars and advanced students in a range

of disciplines who are interested in this topic the introduction and chapters 2 10 and 12 of this book are freely available as downloadable open access pdfs at taylorfrancis com under a creative commons attribution non commercial no derivatives cc by nc nd 4 0 license
