this edited book provides a global view on evolution education it describes the state of
evolution education in different countries that are representative of geographical
regions around the globe such as eastern europe western europe north africa south
africa north america south america middle east far east south east asia australia and
new zealand studies in evolution education literature can be divided into three main
categories a understanding the interrelationships among cognitive affective
epistemological and religious factors that are related to peoples views about evolution
b designing implementing evaluating evolution education curriculum that reflects
contemporary evolution understanding and c reducing antievolutionary attitudes this
volume systematically summarizes the evolution education literature across these three

categories for each country or geographical region the individual chapters thus include common elements that facilitate a cross cultural meta analysis written for a primarily academic audience this book provides a much needed common background for future evolution education research across the globe
