Now available in paperback, *The Ivory Tower and Harry Potter* is the first book-length analysis of J.K. Rowling's work from a broad range of perspectives within literature, folklore, psychology, sociology and popular culture. A significant portion of the book explores the Harry Potter series' literary ancestors, including magic and fantasy works by Ursula K. Le Guin, Monica Furlong, Jill Murphy and others, as well as previous works about the British boarding school experience. Other chapters explore the moral and ethical dimensions of Harry's world, including objections to the series raised within some religious circles. In her new epilogue, Lana A. Whited brings this volume up to date by covering Rowling's latest book, *Harry Potter and the Order of the Phoenix*.

In the last few decades, a number of European scholars have paid an increasing amount of attention to children's literature in translation. This book not only provides a synthetic account of what has been achieved in the field but also makes us fully aware of all the textual, visual and cultural complexities that translating for children entails. Students of this subject have had problems in finding a book that attempted an up-to-date and comprehensive review of the field. Gillian Lathey's *Reader* does just this. Dr Piotr Kuhiwczak, Director, Centre for Translation and Comparative Cultural Studies, University of Warwick.

A growing body of scholarship is making visible the contribution of translators to the creation, preservation and transmission of knowledge about the Holocaust. The discussion has tended to be theoretical or to concentrate on exposing the distorted translations of texts by important witnesses such as Anne Frank or Elie Wiesel. There is therefore a need for a positive, concrete and contextually aware approach to the translation of Holocaust testimonies that acknowledges the achievements of translators while being sensitive to the consequences of particular translation strategies. Peter Davies's study proceeds from the assumption that translators are active co-creators whose work does not simply mediate a pre-existing text but creates a representation of that text for a new readership in a specific context. Translators of Holocaust testimonies then provide a form of textual commentary that works through ideas about witnessing historical truth and the meaning of the Holocaust. In this way, they are important co-creators of knowledge about the Holocaust and its legacy. The study focuses on translations between English and German and from other languages, principally French, Russian and Polish, into English and German.

it works through a number of case studies showing how making translation and its effects visible contributes to a clearer understanding of how knowledge about the holocaust has been and continues to be created and mediated peter davies is professor of german at the university of edinburgh
