this volume presents a practical guide to the development application and evaluation of effective interprofessional education in health and social care it is both a practice manual for those in hands on

roles and a reflective guide for those indirectly involved in professional education the book provides clear advice on methods of establishing training and education programmes and evaluating their effectiveness while simultaneously examining the relationship between initial application ongoing maintenance and subsequent assessment the authors expound multiple points of view that will generate individual thinking and approaches to both the practice and the estimation of interprofessional education schemes the book is divided into three sections the first introduces the differing approaches to professional education and the rationale behind measuring their worth the second part focuses on planning development and delivery the third part advises in a robust and pragmatic way on modes of measuring the efficacy of programmes the interrelation of these topics is then examined to provide a synthesised perspective on the development delivery and evaluation of interprofessional education

this book chronicles the journeys of educational researchers and academics who have engaged in research and development to improve teaching and learning at universities it highlights the research evidence approaches and in many cases the journey of transformation rather than prescribing certain principles of and approaches to effective instruction in other words it not only describes the destination but also various pathways leading toward it further it focuses on mechanisms for improving the approaches discussed rather than simply determining whether one works better than the other as such novice and seasoned academics and teaching staff in higher education will benefit from this book not just from the teaching and learning approaches it highlights but also from the insights into the respective journeys the research and development methods and approaches discussed here will also appeal to researchers working in teaching and learning in higher education

one day one problem is a unique adaptation of problem based learning pbl pioneered at republic polytechnic singapore here students are challenged each day with a problem from their domain and attain the necessary learning outcomes in the process of responding to the problem throughout the day students would engage in small group discussions self directed learning and conversations with their teacher who plays the role of a facilitator this approach to learning and instruction represents a new brand of constructivist learning in a more structured learning environment compared to conventional pbl this book contains a series of chapters by authors with first hand experience in the one day one problem pbl approach unlike other books on pbl the chapters are both research informed and practical results of empirical studies into the factors of pbl such as quality of problems tutor behaviours scaffoldings student learning and interest are discussed together with practical implications for the educator the book begins with an overview of the one day one problem process providing a viewpoint from both the student and tutor republic polytechnic s pedagogical philosophy and epistemological belief of education are introduced with the intent to share how the polytechnic designed and implemented a system that supports the philosophical beliefs results and practical implications of empirical studies on the various factors that influence students learning in pbl are discussed these include the quality of problems and the use of scaffoldings for students learning tutors as facilitators

preparation of staff for pbl student assessment how students learn in the process of pbl and student interest

over the past twenty years worldwide demand for cruise tourism has posted some of the biggest gains within the tourism sector the constant dynamism in cruise activity as well as the increasing number of countries that include cruises as a key product for their tourism development has led to update and expand the first edition of the unwto study of 2003 this new study discusses subjects like the current supply and demand for cruises as well as its characteristics and trends a new element includes the relationship between destinations and cruise lines analysing key factors such as legislation promotion and the economic impact of cruises through reference cases it presents current trends in this industry in terms of innovation safety and security sustainability and identifies the major lines that will shape the sector

in the current era where lifelong learning is brought to the fore higher education can no longer be regarded as an isolated trajectory within one's educational career as many students face substantial challenges in crafting their professional future more specifically the transition from school to higher education and continuing to the labour market are often a difficult hurdles for many students almost half of students do not succeed in the first year and often withdraw from education students are faced with a variety of contexts and may choose to study in a different international context and they are then confronted with structural barriers in finding a high quality job as evidenced by increasing levels of youth unemployment and underemployment higher education transitions aims to deepen our understanding of the transitions taking place when students enter progress and leave higher education to enter the labour market drawing on an international team of contributors this guide includes three conceptual and fifteen empirical studies which include a range of quantitative qualitative cross sectional and longitudinal studies divided into three sections to reflect each important transition phase topics include transitions from secondary to higher education transitions within higher education transitions

from higher education to the labour market by considering transitions across different phases as a broad and interrelated process this guide will be essential reading for higher education researchers policy stakeholders and all those interested in the transitions into higher education and the labour market

online learning has become more and more common globally whether for comfort adapting to work hours or just having the freedom to study from anywhere and now under the coronavirus pandemic as people are having to stay at home it has become more important than ever although the popularity of wireless network and portable smart device makes it possible for people to acquire and learn knowledge anytime and anywhere it does not necessarily mean an increased learning performance relevant research in cognitive science has revealed possible limitations in online learning for example the knowledge acquired through online learning tends to be fragmented and lacks guidance for integrated thinking among different subjects which makes it difficult for learners to form a systematic knowledge structure learners may experience cognitive overload metacognitive illusion and low learning efficiency in self regulated learning it follows that in the post covid 19 era online learning puts forward new requirements and challenges to the contemporary students not only to their learning strategies but positive character traits in learning most of the current learning theories were developed in the early 20th century and may not fit in well with the current situation then possibly leading to inefficient learning and increased learning burden therefore it is necessary and important to reexplore the influencing factors and mechanisms that affect the learning efficiency of students at all levels nowadays based on which we could construct a theoretical model of efficient learning model

oecd s periodic survey of the swiss economy covering major economic challenges including the current account surplus making fiscal policy supportive of economic growth deficiencies in the regulation of goods and services markets and raising the contribution of immigration to prosperity

using various concepts theories and methods this book describes theoretical and empirical studies that are united in their approach of treating language not in isolation but as both based on structures and processes of cognition and at the same time as affecting the human mind

based on a research study in four developing cities dar es salaam kumasi maseru and kathmandu contested space explores the survival strategies of street traders and their relationships with city governments and examines the practical and policy implications for pro poor street management
