and demonstrates how these can be put into practice education and learning are separate things learning is a human phenomenon essential to growth and development  
occurring throughout life with or without a teacher the authors begin with a broad examination of the social changes that have made learning such a central concept in  
contemporary society and discuss the definition of learning the current theoretical approaches to learning are then presented in clear understandable terms with an in depth  
discussion of the strengths and weaknesses of each approach the book ends with an introduction to the literature and forms of adult learning and suggestions on how  
each type can be used in either an educational or human resource developmental setting
