discovering his humanity couldn't have come at a worse time

this book presents a comprehensive forensic analysis of an oil painting depicting a madonna and child in a tondo format previously thought to be a victorian copy detailed historical and scientific studies confirm that this painting was in fact created by raphael around 1512 as a study for his renowned sistine madonna commissioned by pope julius ii as an altarpiece for the monastic church of san sisto in piacenza the painting underwent rigorous forensic examination combining historical research with both invasive and non invasive scientific imaging techniques the analysis utilized advanced physical

and chemical instrumentation to determine the painting's authenticity and accurate chronological placement a comparative review of published chemical analyses of pigments dyes and substrates used in raphael's works from collections worldwide is included additionally this study explores the innovative use of artificial intelligence ai for facial comparison between the figures in the tondo painting the sistine madonna and other raphael artworks these ai generated insights provide novel information about the identities of raphael's models and shed light on his working techniques as well as those of his associates
