in a devastating new postscript to this bestselling book finkelstein documents the holocaust industry s scandalous cover up of the blackmail of swiss banks and in a new appendix demolishes an influential apologia for the holocaust industry

in his iconoclastic and controversial study norman g finkelstein moves from an interrogation of the place the holocaust has come to occupy in global culture to a disturbing examination of holocaust compensation settlements it was not until the arab israeli war of 1967 when israel s evident strength brought it into line with us foreign policy that

memory of the holocaust began to acquire the exceptional prominence it has today recalling holocaust fraudsters such as jerzy kosinski and binjamin wilkomirski as well as the demagogic constructions of writers like daniel goldhagen finkelstein contends that the main danger posed to the memory of nazism s victims comes from some of the very people who profess most passionately to defend it drawing on a wealth of untapped sources he exposes the double shakedown of european countries and legitimate jewish claimants and concludes that the holocaust industry has become an outright extortion racket

before 1967 israel had the overwhelming support of world opinion so long as israel s existence was in harmony with politically correct assumptions it was supported or at least accepted by the majority of progressive jews especially in the wake of the holocaust this is no longer the case the jewish divide over israel explains the role played by prominent jews in turning israel into an isolated pariah nation after their catastrophic defeat in 1967 arabs overcame inferiority on the battlefield with superiority in the war of ideas their propaganda stopped trumpeting their desire to eradicate israel instead in a calculated appeal to liberals and radicals they redefined their war of aggression against the jews as a struggle for the liberation of palestinian arabs the tenacity of arabs rejection of israel and their relentless campaign in schools universities churches professional organizations and above all the news media to destroy israel s moral image had the desired impact many jewish liberals became desperate to escape from the shadow of israel s alleged misdeeds and found a way to do so by joining other members of the left in blaming israeli sins for arab violence today jewish liberals rationalize violence against the innocent as resistance to the oppressor excuse arab extremism as the frustration of a wronged party and redefine eliminationist rhetoric and physical assaults on jews as criticism of israeli policy israel s jewish accusers have played a crucial and disproportionate role in the current upsurge of antisemitism precisely because they speak as jews the essays in this book seek to understand and throw back the assault on israel led by such jewish liberals and radicals as tony judt noam chomsky george steiner daniel boyarin marc ellis israel shahak and many others its writers demonstrate that the foundation of the state of israel far from being the primal sin alleged by its accusers was one of the few redeeming events in a century of blood and shame

this book springs from the bristol sheffield hallam colloquium on contemporary antisemitism at the university of bristol in september 2015 international experts in religious studies law politics sociology psychology and history came together to examine the complexities of contemporary antisemitism recent attacks on jews in european cities have increased awareness of antisemitism and as this collection shows such attacks cannot be separated from wider geopolitical and

ideological factors one distinct feature of antisemitism today is its demonization of the state of israel older ideas also feature jews being blamed for all the world s ills thought to possess almost supernatural levels of power and wealth and conspiring to harm the non jewish other these and other ideas forming the background to antisemitism in europe and north america are unpacked in this book with a view to understanding and thereby combating contemporary antisemitism a key concern is how unifying features might be isolated amid the diverse manifestations of this oldest of hatreds

this book examines a range of public debates on the nazi legacy in germany since schröder s sdp green coalition came to power in 1998 a central theme is the dialectic of normality whereby references to nazi past impact upon present normality the book is a valuable resource for students of contemporary german politics history and culture

the recent rise of antisemitism in the united states has been well documented and linked to groups and ideologies associated with the far right in from occupation to occupy sina arnold argues that antisemitism can also be found as an invisible prejudice on the left based on participation in left wing events and demonstrations interviews with activists and analysis of left wing social movement literature arnold argues that a pattern for enabling antisemitism exists although open antisemitism on the left is very rare there are recurring instances of antisemitic trivialization in which antisemitism is not perceived as a relevant issue in its own right leading to a lack of empathy for jewish concerns and grievances arnold s research also reveals a pervasive defensiveness against accusations of antisemitism in left wing politics with activists fiercely dismissing the possibility of prejudice against jews within their movements and invariably shifting discussions to critiques of israel or other forms of racism from occupation to occupy offers potential remedies for this situation and suggests that a progressive political movement that takes antisemitism seriously can be a powerful force for change in the united states

if we are responsible educators the causes of the holocaust must be addressed in order to prevent future genocide contemporary jewish identity emanuele ottolenghi and mark weitzman examine contemporary antisemitism in europe and north america respectively michael pollan reflects upon jewish identity from the unique perspective of a young jew who worked as a civil servant for the austrian government in a program designed to acknowledge austria s role as a perpetrator of the shoah testimony firsthand testimony will soon be available only in memoirs or recorded oral histories in the future second and subsequent generations must speak as witnesses sheldon schreter a grandchild of holocaust victims describes a visit with his four sons to sighet romania his parents birthplace and struggles with the question of why

the prevention of genocide is in large measure dependent upon the good will and intervention of citizens living in modern cultures

fourteen experts address issues of holocaust representation interpretation and remembrance in rapidly shifting landscapes of memory

starting from a non idealizing non demonological review of judaism jewish history and anti semitism this book presents a sympathetic analysis of the development of political zionism and goes on to show how a dream can become both a living reality and a nightmare while beit hallahmi does not fault the idea of a jewish state in the abstract he shows how zionism in practice and power becomes a kind of settler colonialism trying to ignore its victims the palestinians the purpose of original sins is to counter the mystification on both sides of the arab israeli conflict to examine causes and principles and to reach an analysis of the current political and moral crisis in search for a solution to end the suffering on both sides

renton traces the rise of european fascism in the inter war years and focuses on the condition of weimar germany british fascism and hitler s early career

Right here, we have countless books **Norman Finkelstein The Holocaust Industry** and collections to check out. We additionally pay for variant types and after that type of the books to browse. The usual book, fiction, history, novel, scientific research, as well as various further sorts of books are readily straightforward here.
