thousands of shattered limestone pieces came to light in 1974 at the mont e prama site in western sardinia they have been reassembled into dozens of striking colossal statues that reward close study by archaeologists historians conservators and restorers the giant statues and the individual tombs in this monumental necropolis sculpted by a powerful mediterranean civilization make mont e prama a uniquely rich representation of a culture s values and traditions in the bronze age and the iron age this is the first english language book to explore mont e prama s limestone statues among the most important archaeological discoveries of the past fifty years and the source of fresh discoveries even today it is written by the people who are leading the

excavation and restoration of these treasures researching the artifacts and their context and presenting the eerie faces towering bodies and sprawling site to the world a lost mediterranean culture takes the reader through the details of the various discoveries at Mont'e Prama recounting the history of scholarship on the artifacts and describing the landscape the context and the meticulous restoration efforts it also addresses the illicit trafficking of sardinian cultural property lavishly illustrated with photographs and other figures that showcase fine details a lost mediterranean culture offers fresh information for specialists and captivates a wider audience with the beauty of these massive sculptures

megalithism or the art of using huge boulders to create sacred pagan monuments and sites still fascinates us today how did prehistoric man cut transport and place such enormous stones some weighing up to 200 metric tons without bulldozers drills and cranes yet primitive man without the written word or wheel created structures which still stupefy us in the 21st century both due to their components and the precision used in positioning them this book takes us back in time to the 5th 2nd millennia b.c. and helps us visualise the stone age world and its constructions menhirs dolmens rows and circles of standing stones undoubtedly they were sacred places used for pagan rituals and funerary purposes but the author also gives us details of their astronomic and physical alignment which clearly demonstrates the knowledge of the heavens these ancestors had and how they applied it without slide rules set squares and theodolites the high priests of ancient times could calculate when the solstices and equinoxes would occur and thus regulate the seasons for sowing and reaping the author's careful and updated identification of all such structures leads us through ancient european megalithism complete with the religious and social aspects of it and its pagan legacies he does not neglect forms of sub actual megalithism either the use of massive stones by peoples described as primitive but with a relatively advanced culture who lived in times closer to our own in africa asia and south america the myths and legends arising from the megalithic structures are recounted here in detail the author also describes megalithic art in the form of statue stele and menhir statues as well as the often intricate decoration carved on single stones and in construction such as dolmens funerary mounds astronomic observatories and temples he also describes studies and experiments on the methods of transport and construction used by prehistoric peoples together with conflicting opinions and theories amply illustrated with photographs and drawings megalithism guides the reader through every part of the megalithic world with smooth flowing text that will be accessible to specialists and interested general public alike
