in premodern europe families played a significant role in commissioning artworks as well as in choosing what iconography was used the nine essays in this volume highlight the often overlooked contributions of matriarchs actual or iconographic to this process they look at mothers wives mistresses sisters and nuns who served as patrons models of inspiration and even as artists themselves while most maternal imagery was positive occasionally it could reveal motherly instincts that had gone awry as in the case of the wild woman of northern european folklore who abducted children whether manifesting as portrayals of charity labour sacrifice piety compassion or grief the imagery evoked by spiritual and maternal connections among kinsfolk played an essential role in european iconography and creative output based upon investigations in archives and manuscripts along with written and visual sources the essays in this volume thus make a vital contribution to the growing body of research on the importance of family matters in artistic development

from the late seventeenth through the mid eighteenth centuries large scale italian frescoes soared in popularity as nobles in the german principalities of the holy roman empire constructed new palaces at an unprecedented rate they competed with one another to produce lavish decorative schemes that expressed their claim to princely power and political authority whereas previous art historians have primarily focused on iconographic and stylistic issues and generally treated these programs as individual commissions of regional courts this book places the works of art within their broad cultural and historical contexts during the enlightenment this monograph explains how rulers gradually shifted from emphasizing military heroism to stressing their cultivation of the arts and sciences and addresses how expressing membership in a specifically european civilization emerged as an integral visual theme and a key ambition of the german

nobility

advances in marine biology has been providing in depth and up to date reviews on all aspects of marine biology since 1963 over 40 years of outstanding coverage the series is well known for both its excellence of reviews and editing the serial publishes in depth and up to date content on a wide range of topics which will appeal to postgraduates and researchers in marine biology fisheries science ecology zoology and biological oceanography rated number 1 in the highly competitive category of marine freshwater biology by isi in the 2000 isi journals citation report maintains an impact factor of 3.37 the highest in the field series features over 35 years of coverage of the research

this book explores the social roles of women as portrayed within the book of proverbs as well as the character archetypes and patriarchal ideologies which undergird the sages portrayal using feminist folklore methodologies and performance studies the author explores an alternative paradigm for understanding women's relationship to wisdom traditions in the ancient near east using parallel texts later midrash and extrabiblical representations of biblical women associated with wisdom the author demonstrates that women were culturally authorized performers of the family based wisdom traditions of teaching economic problem solving and care giving and that these roles provided them with a platform to use their acknowledged wisdom in public roles

winner of the 2011 w w howells book award of the american anthropological association how has bipedalism impacted human childbirth do pms and postpartum depression have specific maybe even beneficial functions these are only two of the many questions that specialists in evolutionary medicine seek to answer and that anthropologist wenda Trevathan addresses in ancient bodies modern lives exploring a range of women's health issues that may be viewed through an evolutionary lens specifically focusing on reproduction Trevathan delves into issues such as the medical consequences of early puberty in girls the impact of migration culture change and poverty on reproductive

health and how fetal growth retardation affects health in later life hypothesizing that many of the health challenges faced by women today result from a mismatch between how their bodies have evolved and the contemporary environments in which modern humans live trevathan sheds light on the power and potential of examining the human life cycle from an evolutionary perspective and how this could improve our understanding of women s health and our ability to confront health challenges in more creative effective ways

to do what no other magazine does deliver simple delicious food plus expert health and lifestyle information that s exclusively vegetarian but wrapped in a fresh stylish mainstream package that s inviting to all because while vegetarians are a great vital passionate niche their healthy way of eating and the earth friendly values it inspires appeals to an increasingly large group of americans vt s goal to embrace both

vols 17 21 105 contain annual reports of the marine biological laboratory for 1907 08 1952
