this book covers multifaceted problems and their possible solutions in sustainable investing written by experts in the field from academia and industry the book includes three main topics the general problems of sustainable investing are addressed in part 1 they include the discussion of the concept of double materiality current esg legal framework and its specifics for private equity the reviews of the sustainable investment indexes and funds as well as the machine learning techniques for deriving and analysing the esg ratings part 2 is devoted to the climate change it covers net zero portfolios being the means of reducing the investment carbon footprint estimation of the scope 3 greenhouse gas emissions venture investments in carbon dioxide removal technologies and an optimization problem of fuel production in carbon trading finally part 3 describes several sustainable investing strategies based on including sustainability indices and factors into the portfolio choice framework it also introduces new portfolio performance measures relevant for sustainable investing

the speech situation is a term worn with age in the teaching of public speaking in america that it is comprised of occasion speaker and topic is a gross oversimplification it also includes challenge anxiety emotion fear responsibility

faults of memory and instants of pride out of the circumstances arise an increase in heart rate a change in blood pressure an abnormal pattern of breathing a noticeable build up in perspiration and an ongoing evaluation for students this may be merely a grade or perhaps a series of evaluative remarks possibly addressed both to the speaker and the other participants the audience it may entail a replaying of a record of the speech indeed a videotape most important is the lasting impression that remains with all of the participants what of the vocabulary of the speaker under the circumstances of the speech situation this speaker in the major portions of this work we may say this young man has spent time seeking an appropriate topic he has outlined a composition around a central idea or thesis he has marshaled evidence details he has framed an opening paragraph he has been admonished not to give an essay but to strive for audience contact interpersonal communication he makes his audible approach through his vocabulary and accompanying phonology under the tension the speaker repeats he adds meaningless vocalizations in periods that might logically be pauses there are slips of the tongue at worst failing he withdraws to await another day

the book is about what god is what we are what the universe is what our final destiny is and what death actually is all those are different forms of zero nothing depend on the state of consciousness

one of the most widely used tools in statistical forecasting single equation regression models is examined here a companion to the author's earlier work forecasting with univariate box-jenkins models concepts and cases the present text pulls together recent time series ideas and gives special attention to possible intertemporal patterns distributed lag responses of output to input series and the auto-correlation patterns of regression disturbance it also includes six case studies
