as the fastest growing population sector worldwide older adults are seen in almost every care setting in which clinicians practice developed as a resource for advanced practice nurses in any setting case studies in gerontological nursing for the advanced practice nurse presents readers with a range of both typical and atypical cases from real clinical scenarios the book is organized into six units covering cases related to ageism common health challenges health promotion environments of care cognitive and psychological issues and issues relating to aging and independence each case follows a similar format

including the patient's presentation, critical thinking questions, and a thorough discussion of the case resolution through which students and clinicians can enhance their clinical reasoning skills. Designed to promote geriatric clinical education through self-assessment or classroom use, case studies in gerontological nursing for the advanced practice nurse is a key resource for all those dedicated to improving care for older adults.

Perfect for diploma of nursing students, apply theory to practice with the Clinical Cases Textbook Series. Clinical Cases Nursing Care Studies is the perfect textbook for nursing students completing their diploma. This nursing book offers a variety of case studies based on common real-life examples that you are likely to encounter in practice. Written by Margaret Webb and Ellie Kirov, Nursing Care Studies focusses on key nursing care topics including vital signs, skin integrity, and wound care. Community-based care, general health assessment, medications, and palliative care benefit from the logical structure of this nursing book where each case study begins with an introduction of the presenting condition and associated symptoms. As the scenario develops, more information is provided such as the patient's condition, medications, tests, and other important factors. Best of all, the conclusion of each case study emphasises patient outcomes and emphasises key points, providing you a great summary to reflect on. Make the most of Clinical Cases Nursing Care Studies by using it in conjunction with Taberner's Nursing Care Theory and Practice 6th edition by Gabby Koutoukidis, Kate Stainton, and Jodie Hughson. As you progress through your diploma of nursing, used together, these nursing textbooks provide a strong foundation for your knowledge of important themes and issues in nursing care. Support your nursing education by purchasing the other great titles available in the Clinical Cases Textbook Series. Other titles in this series: Clinical Cases Fundamentals of Nursing, Case Studies by Natasha Scully and Damian Wilson; Clinical Cases Medical Surgical Nursing, Case Studies by Janine Bothe. Other formats: This book is also available as an app via the Apple App Store (iTunes, apple.com/au/app/clinical-cases-nursing-care/id659030265). MT 8: Easy to understand, logical layout, 24 case studies covering key topics in nursing care, multiple choice questions to test your knowledge throughout the textbook, rationales provided for all answers, references for further reading and research, designed as an exam preparation and revision tool.
