one program that ensures success for all students

Joseph Le Conte was the first geologist, natural historian, and botanist to be appointed to the University of California in 1869. He founded the successful paleontology program at Berkeley and acquired important collections of fossils. He also lectured and wrote on evolution, of which he was the leading American proponent. This book, first published in 1888 but revised and expanded in the second edition, is his attempt to reconcile his evolutionist convictions with his religious faith. Such a synthesis, he felt, was impeded by dogmatism on both sides, and he makes a case for a combining, reconciling, and rational view. He considers three questions: What is evolution? Is it true? And what then, intending to address the intelligent general reader without being superficial or unscientific, concepts such as neo-Darwinism, materialism, and design make their appearance in this wide-ranging book whose concerns remain surprisingly topical today.

PgT English Question Bank Chapterwise for PgT Teachers

discusses the trend in high school classrooms away from subject-based instruction and toward interdisciplinary instruction in which students learn to apply lessons from school to areas of relevance in their lives and includes examples of excellence from around the country as well as ten full-length case studies.
