andr  vltchek has compiled a stunning record in evoking the reality of the contemporary world not as perceived through the distorting prisms of power and

privilege but as lived by the myriad victims he has also not failed to trace the painful and particularly for the west shameful realities to their historical roots in this work vltchek extends his penetrating gaze to a lovely desecrated almost forgotten vast area of the world oceania which he shows to be a microcosm of almost all major problems faced by our planet he brings to light the strength and courage of the people and their achievements and explores the hopes for decent recovery and survival if the powerful can allow themselves to comprehend what they have done and to accept the responsibility of actually protecting their victims instead of mouthing comforting and self serving slogans noam chomsky
