my book demonstrates how classical liberalism was the foundation upon which thomas jefferson george washington alexander hamilton and others wrote the declaration of independence constitution and the bills of rights however it was rolled back by 1980 and replaced with neoliberalism which was championed by the reagan administration in short this ideology has one main aim and that is to shrink government cut the budgets of social programs and give away billions of taxpayer dollars to private

business in the form of tax breaks during the jindal administration and by the end of its first term more than 7 billion worth of tax breaks had been given away to private business a surplus of 1 billion left in the louisiana treasury by outgoing governor kathleen blanco after hurricane katrina was given away by the end of the first two months of its first term today the louisiana legislature is currently facing a 650 million fiscal cliff and no doubt more budget cuts are in store for the louisiana public sector

reverse payment settlements or pay for delay agreements between originators and generic drug manufacturers create heated debates regarding the balance between competition and intellectual property law these settlements touch upon sensitive issues such as timely generic entry and access to affordable pharmaceuticals and also the need to preserve innovation incentives for originators and to strengthen the pipeline of life saving pharmaceuticals this book is one of the first to critically and comparatively analyse how such patent settlements and various other strategies employed by the pharmaceutical industry are scrutinised by both united states us and european courts and enforcement authorities and to discuss the applicable legal tests and the main criteria used for their assessment the book s ultimate objective is to provide guidance to the pharmaceutical industry regarding the types of patent settlements strategies and conduct which may be problematic from us antitrust and european union eu competition law perspectives and to assist practitioners in structuring settlements which are both efficient and compliant to this end an exhaustive legal analysis of some of the most controversial issues regarding pharmaceutical patent settlements is provided including the lengthy split among us circuit courts on the issue of pay for delay settlements its resolution by the us supreme court in *ftc v actavis* and subsequent jurisprudence the decision of *lundbeck v commission* by the european general court and the *servier* decision of the european commission the *roche novartis* decision of the european court of justice and the most important decisions by national competition authorities on pharma patent settlements in the eu an overview of other types of strategies such as product hopping and product reformulations no authorised generic commitments problematic side deals mechanisms affecting generic substitution the rejection of the scope of the patent test in both the us and the eu and the balancing of patent law and antitrust law considerations in the prevailing applicable tests the benefits of settlements and the main criteria for assessing their legitimacy under us antitrust and eu competition law the analysis provides concrete examples of both illegitimate and legitimate settlements and strategies emphasising on conduct that falls within a grey zone and on the circumstances and criteria under which such conduct could be deemed problematic from an antitrust perspective this book will serve as a valuable guide for pharmaceutical companies wishing to minimise the risk of engaging in conduct that could potentially infringe us antitrust and eu competition law it further aims to save courts and enforcement agencies and also practitioners and academics considerable time and resources by providing an exhaustive analysis of the relevant caselaw with the ultimate goal to increase legal certainty on the most controversial aspects of patent settlements in the pharmaceutical industry

economic crime is a significant feature of the UK's economic landscape and yet despite the government's bold mission statements to hold those suspected of financial wrongdoing to account as part of their day of reckoning and serious about white collar crime agenda there is a sense that this is still not being done effectively this book examines the history of the creation of the UK's anti economic crime institutions and accompanying legislation providing a critique of their effectiveness the book analyses whether the recent regulatory regime is fit for purpose as well as being appropriate for the future in order to explore how the UK's economic crime strategies could be improved the book takes a comparative approach analysing policy and legislative responses to economic crime in the United States and Australia in order to determine whether the UK could or should import similar structures or laws to improve the enforcement of UK economic crime

cardiology's cornerstone text thoroughly updated to reflect the latest clinical perspectives and cutting edge topics hailed for its authority currency and ability to translate the latest technical and clinical advances into clinical application Hurst's the heart is the field's landmark text and cardiology's longest continuously published reference text a previous edition of this trusted classic was described by Doody's as an outstanding choice for those who strive for a firm foundation in cardiovascular medicine as well as an up to date and user friendly source that addresses every discipline in the field readers will find succinct visually appealing summaries of all the major new trials and guidelines along with tips for optimizing outcomes and health quality the fourteenth edition has been completely updated to reflect the latest technical therapeutic and clinical advances while still maintaining a strong focus on patient care other enhancements include the addition of textual features such as practice points common clinical questions and an increased number of the acclaimed Hurst's diagrams new to this edition section on metabolic disorders and cardiovascular disease cigarette smoking and cardiovascular disease enhanced by more than 1 500 full color illustrations and more than 500 tables brand new chapters include arrhythmogenic cardiomyopathy ischemic mitral regurgitation degenerative mitral valve disease left ventricular noncompaction evaluation and management of acute heart failure carotid artery stenting race ethnicity and cardiovascular disease the only comprehensive cardiology reference to publish every 2 5 years to allow for reporting of the latest trials and guidelines

the survey 2015 assesses the region's outlook as it navigates through global uncertainties providing policy options and strategies to sustain inclusive and sustainable growth the report analyses a wide range of areas including economic growth inflation trade and investment financial markets inequality employment and environmental concerns the special theme of survey 2015 argues that although rapid economic growth in the Asia Pacific region has been accompanied by significant declines in poverty rates development is about more than growth and poverty the report reviews trends and patterns of inclusive growth in the region and motivates why both the private and public sectors should do more to address existing inequalities this edition comes in two parts which will not be sold separately

in addition to conflicts and related security disruptions in the arab region a significant fall in oil prices and their uncertain prospects have become a predominant economic concern with prices plunging by more than 50 per cent in the second half of 2014 nevertheless member countries of the gulf cooperation council gcc have continued to lead growth in the arab region this edition of the survey of economic and social developments in the arab region looks at the continued expansion of the non oil sector as it maintains gcc economic growth lower oil prices have not yet negatively affected the gcc economically although confidence has dropped with weakening stock markets and real estate transactions furthermore lower oil prices have benefited oil importing arab countries by easing their balance of payment and fiscal constraints with conflict and violence in the region one of the main channels for economic stabilization has been intraregional flows of capital and remittances from the gcc countries

includes annual list of doctoral dissertations in political economy in progress in american universities and colleges

master s thesis from the year 2015 in the subject business economics accounting and taxes grade 2 0 university of hohenheim language english abstract the purpose of this thesis is to provide direct empirical evidence on the use of the amendment according to ias 39 regarding the reclassification of financial instruments it therefore reviews what happened when the accounting policies were switched from fair value accounting to historical accounting during the financial crisis in 2008 using a sample of manually collected data from western european banks the thesis empirically examines which banks used this reclassification option to deal with problematic financial assets and how these reclassification activities are correlated with other firm characteristics furthermore the thesis shows the influence of the amount of assets in each fair value level on the fair value hierarchy and the impact of the banks regulatory capital during the height of the financial crises on the use of the relaxation option the final aim is to analyze the economic consequences of this option and to determine how beneficial it is for the global financial system considering that banks will again make use of this sort of permission in other future crises after the development of the international financial reporting standards ifrs by the international accounting standard board iasb in 2001 the european union eu decided to unify the jurisdictions for all listed corporations and therefore decreed a mandatory adoption of ifrs in the eu the eu reasoned that common accounting standards improve capital market efficiency and reduce information processing and auditing costs however the decisive reason for the adoption of ifrs was that today s global economy requires global standards to ensure transparency accountability and comparability of financial accounts ifrs was preferred because of its focus on a fair value based method of accounting compared to historical cost accounting and the eu claimed that adopting ifrs would bring financial stability while serving the interests of the public

this journal attempts to fill a gap between the general interest press and other academic economics journals its articles relate
