all five of the epics discussed in this volume came to serve as the basis for an ethnic and national tradition of history religion and literature documenting sometimes encyclopedically the crucially formative events of a people s early collective experience a sequential study of these stories will invite and provoke comparative questions and discussions of similar or parallel images episodes cultural values narrative strategies and poetic forms of the five works discussed herein the mesopotamian epic of gilgamesh the hebrew david story from 1 and 2 samuel and 1 kings the greek odyssey of homer the indian ramayana of valmiki and the irish táin bó cúailnge only the odyssey conforms precisely to the classical western conception of the epic but much is to be gained by considering these several ancient narratives collectively as parts of a composite human whole all are set in a time of historical beginnings when acts of bravery violence and conquest proved instrumental in the formation of a people and the shaping of a nation all recount the exploits of a hero or heroes whose triumphs and failings prove to have a decisive impact on the destiny of an age and a culture all reflect an entrenched culture of warriors and kings whose acts of heroism and prowess on the battlefield become the subjects of song and celebration for a people just beginning to take stock of their historical cultural and religious heritage in cultures wherein literacy was rare books even rarer mass media nonexistent and entertainment few hunger for and delight in stories must have been common and intense the oldest of the stories discussed in this collection gilgamesh dates back almost five thousand years yet it and the others still resonate with modern readers there is much pleasure to be had in discovering the common themes these epics share and in realizing that they are stories as much for today as for yesterday

epicurus and his roman disciple lucretius held that the primary cause of human unhappiness was an irrational fear of death what is more they believed that a clear understanding of the nature of the world would help to eliminate this fear for if we recognize that the universe and everything in it is made up of atoms and empty space we will see that the soul cannot possibly survive the extinction of the body and no harm to us can occur after we die this liberating insight is at the core of epicurean therapy in this book konstan seeks to show how such fears arose according to the epicureans and why they persist even in modern societies it offers a close examination of the basic principles of epicurean psychology showing how a system based on a materialistic world view could

provide a coherent account of irrational anxieties and desires and provide a therapy that would allow human beings to enjoy life to the fullest degree
