like the original ward based critical care this second edition aims to guide practitioners in the  
initial management of critically ill adult patients within the ward setting it should be of value to a  
wide range of healthcare professionals including junior doctors nurses physiotherapists and  
students it will also be relevant to practitioners who are moving into any setting that cares for  
acutely ill patients this volume has been slightly reorganised since the first edition to ensure that

practical aspects are incorporated within the relevant sections the book is still structured around the abcde approach to assessing and managing patients as this is promoted in critical care and resuscitation care training the focus on practical examples and hot tips to aid memory of key points continues all the chapters have been updated with the most recent guidance as available at the time of writing this has meant that some chapters have required major revisions while others have remained relatively unchanged some new chapters have been included such as the ones on anaphylactic shock patient safety dealing with pregnant women in the ward setting and massive blood transfusion in addition each section now starts with a chapter giving an overview of the a e approach in order to provide more detail about assessing and managing those aspects of patient care this informative book contains many useful features such as clinical scenarios hot tips and practical skills and the text is richly illustrated and cross referenced throughout

this is the first comprehensive book published from india which is based on mcqs primarily for doctors appearing for competitive exams in critical care medicine it is also a must have for every doctor and nurse working in the icu as the case scenarios and latest recommendations will help them to have a better approach towards complex situations and provide better care to the patients

highlighted skills cross references to the clinical skills chapter throughout text over 30 new case studies patient journey from pre hospital and emergency specific case studies critical thinking questions at the end of chapters chapter 35 obstetric emergencies now includes supporting a normal birth

written by gabby koutoukidis and kate stainton tabbner s nursing care theory and practice 8th edition provides students with the knowledge and skills they will require to ensure safe quality care across a range of healthcare settings updated to reflect the current context and scope of practice for enrolled nurses in australia and new zealand the text focuses on the delivery of person centred care critical thinking quality clinical decision making and application of skills now in an easy to handle 2 volume set the textbook is supported by a skills workbook and online resources to provide students with the information and tools to become competent confident enrolled nurses key features all chapters aligned to current standards including the nmba decision making framework 2020 the enrolled nurse standards for practice 2016 and the national safety quality health services standards 2018 clinical skills videos provide visual support for learners supported by essential enrolled nursing skills workbook 2nd edition an ebook included in all print purchases new to this edition chapter 5 nursing informatics and technology in healthcare focuses on competency in nursing informatics for beginning level practice aligned to the national nursing and midwifery digital capability framework 2020 an increased focus on cultural competence and safety supported by elsevier adaptive quizzing tabbner s nursing care 8th edition

produced in cooperation with the national association of school nurses this text includes comprehensive coverage of the multiple facets of school nursing from the foundations of practice and the roles and functions of a school nurse through episodic and chronic illness and behavioral

issues to legal issues and leading and managing within school settings written and edited by school nurses and pediatric experts it features real world tested best practices based on evidence and experience there s content here that you won t find in other books such as health assessments individualized health plan development mental health conditions including adolescent depression contemporary legal issues and current policy statements essential to school nursing

rev ed of emergency medicine a comprehensive study guide editor in chief judith e tintinalli co editors gabor d kelen j stephan stapczynski american college of emergency physicians 6th ed c2004

increased global considerations relevant to international context of critical care nursing alongside its key focus within the anz context aligned to update nmba rn standards for practice and nsqhs standards an ebook included in all print purchases

this book develops your ability to manage the care of critically and acutely ill patients and to recognise and deal with the early signs of deterioration taking a practical real life approach to care each chapter focuses on a patient with a particular issue from chest pain to sepsis you ll consider the primary symptoms before working through the knowledge and skills needed to care for that patient the book focuses on developing clinical assessment and decision making skills leaving you confident and competent in caring for patients who are unstable deteriorating or critically ill key features each chapter is mapped to the 2018 nmc standards packed with engaging real life practice examples and activities includes new coverage of sickle cell chronic pain bias and major trauma across the age spectrum provides robust evidence based tools and frameworks to use in practice such as abcde assessments

completely revised and updated this broad yet comprehensive edition contains twenty nine chapters on nursing issues and clinical practice topics cover practice and process documentation legal issues health promotion physical assessment i v therapy surgical care and more disorders are organized by body system and feature an overview of anatomy and physiology assessment diagnostic tests medication treatment and home care with coverage of care for maternal neonatal pediatric geriatric emergency and psychiatric patients added features include grabbing nursing procedure graphics complementary therapies clinical pathways and cultural information over 1 000 illustrations charts and graphs enhance the text with a new appendix relating internet sites for nurses

why waste time guessing at what you need to know for the ccrn exam maximize your exam preparation time with this quick hit question and answer review the unique question and single answer format eliminates the guesswork associated with traditional multiple choice q a reviews and reinforces only the correct answers you ll need to know on exam day emphasis is placed on distilling key facts and clinical pearls essential for exam successs great for certification and re certification this high yield review for the ccrn exam is the perfect compliment to larger tests for

intense streamlined review in the days and weeks before your exam

a definitive overview of how to evaluate stabilize and perform surgeries for multiple emergent scenarios it s a step by step from triage through the operation and concisely explains how to handle trauma critical care and emergency surgery situations no other resource delivers such quick access to essential information prior to the procedure helping to ensure optimal outcomes for the critically ill surgical patient written specifically to help you prepare during the narrow window of time between resuscitating the patient in the emergency room and the patient s admission to the operating room

designed to be a working guide this text provides comprehensive coverage of all aspects of assisted ventilation includes chapters on control of ventilation specialized ventilator techniques and modalities and exogenous surfactant therapy pulmonary management techniques such as liquid ventilation and nitric oxide are also discussed ventilatory management case studies test diagnostic and clinical abilities with problems drawn from actual clinical files

includes summarized reports of many bee keeper associations
