the twenty first century presents a changing global demographic people are living longer and older people comprise a continued greater representation in populations this book provides detailed insights into ageing issues related to longitudinal studies legislation policy and the ageing experience including a personal reflection on ageing as well as ageing and the environment intergenerational relations ageism and age representations in media consequently the reader will benefit from a more complete holistic understanding of ageing which will enhance their interactions with older people the contributors here are globally recognised experts in diverse areas within ageing research scholarship and practice the volume is therefore unique and not limited to health and social care professionals but also provides insights into the diversity of the context and experience of ageing the content is also of interest to those studying social gerontology urban planning and sociology as well as legal professionals and policy makers

this book explores the reality of ageing and old age from the perspectives of the individual and society it emphasizes cross cultural aspects of ageing and communication issues both within and across generations the authors approach the understanding of ageing from a multi disciplinary perspective integrating biology psychology linguistics sociology and history the book is organized as follows historical and broader cross cultural issues of ageing followed by biomedical psychological social and communicative aspects of ageing the book concludes with an in depth analysis of the existential dimension of ageing followed by an evolutionary perspective

this work covers theoretical developments and issues influencing the study of adult ageing it explores contemporary trends in social policy drawing on the experience of

~~ageing in the usa europe and an increasingly global environment feminist perspectives~~
on ageing are also covered

this book focuses on ageing as a topic of philosophical theological and historical anthropology it provides a systematic inventory of fundamental theoretical questions and assumptions involved in the discussion of ageing and old age what does it mean for human beings to grow old and become more vulnerable and dependent how can we understand the manifestations of ageing and old age in the human body how should we interpret the processes of change in the temporal course of a human life what impact does old age have on the social dimensions of human existence in order to tackle these questions the volume brings together internationally distinguished scholars from the fields of philosophy theology cultural studies social gerontology and ageing studies the collection of their original articles makes a twofold contribution to contemporary academic discourse on one hand it helps to clarify and deepen our understanding of ageing and old age by examining it from the fundamental point of view of philosophical theological and historical anthropology at the same time it also enhances and expands the discourses of philosophical theological and historical anthropology by systematically taking into account that human beings are essentially ageing creatures

this open access book provides a comprehensive perspective on the concept of ageism its origins the manifestation and consequences of ageism as well as ways to respond to and research ageism the book represents a collaborative effort of researchers from over 20 countries and a variety of disciplines including psychology sociology gerontology geriatrics pharmacology law geography design engineering policy and media studies the contributors have collaborated to produce a truly stimulating and educating book on ageism which brings a clear overview of the state of the art in the field the book serves as a catalyst to generate research policy and public interest in the field of ageism and to reconstruct the image of old age and will be of interest to researchers and students in gerontology and geriatrics

~~this book provides an underexplored view of ageing one that conceives older people as~~
valuable resources in their communities as active citizens with both voice and an agency that includes the capacity for resistance it acknowledges that becoming old with dignity means also paying attention to caring good health services and the possibility of good death the book defines age and ageing as multiple culturally and historically constructed phenomena that are only loosely connected to the years of one's life in focusing on the peripheral north located in the nordic canadian and russian north it highlights important questions and viewpoints that can be found and adapted to other rural areas the book answers the following questions what is the relevance of legislation and international legal agreements in ensuring the rights of elderly people under political and economic changes what challenges do geographic isolation changing age structure and cultural and ecological transformations pose to possibilities for meeting older people's needs for engagement in society as well as for their care as such this book will be of interest to all those working in population aging

providing a comprehensive overview of issues of ageing from a global perspective this ambitious text introduces the reader to a wide range of issues and policies on ageing topics examined include theoretical perspectives on ageing in society demographic trends roles played by older people as political actors migration health pensions family and institutional care and elder abuse this will be an essential text for students of social gerontology as well as an invaluable resource for students of nursing social work social policy and development studies

originally published in 1986 dependency and interdependency in old age presents papers from the british society of gerontology annual conference in 1985 the areas covered include the sociology of ageing methodological issues evaluations of service provision ethnographies of growing old historical studies and political perspectives on ageing a creative dialogue between the proponents of these themes was urgently needed at the time and it was hoped that this volume would stimulate such a discussion

~~successful ageing seeks to challenge assumptions and descriptions and help readers to~~

explore their own critical paths of thinking in regard to aged care the text examines the contemporary culture of gerontology in australia from a critical and analytical perspective the critical and analytical perspective provides the framework on which the text is based
