john barkham reviews

delivers facts stats on each mission with numerous famed photographs

includes over a dozen extra documents including the original 157 page press kit cd rom includes video footage of the foam insulation impacts and the impact testing video footage of the re entry nasa administrator sean o keefe s press conference

the united states air force has a mission in space this mission is to conduct operations in space for the advancement of men s knowledge and capabilities therefore future missions of many air force bases will require the consideration of space support facilities city planning as a profession is developing rapidly the state of the art as practiced in the civilian community is more advanced than as practiced by the air force the techniques procedures and standards used by the city planning profession in developing civilian master plans can be of assistance to air force master planning they are required tools for successful development land use standards in particular are needed to permit personnel

responsible for air force planning to check existing facilities for adequacy and to allow computation of total land requirements for new bases and facilities the air force lacks trained professional planners to overcome this shortage there is a need for an adequate air force manual on master planning encompassing the latest techniques procedures and standards they must be prepared with the thought in mind that most persons using them for the development of an air force base master plan are not formally educated city planners author

to commemorate the momentous 50th anniversary of yuri gagarin s pioneering journey into space on 12th april 2011 a series of five books to be published annually will explore this half century decade by decade to discover how humanity s knowledge of flying working and living in space has changed each volume will focus not only upon the individual missions within its decade but also upon the key challenges facing human space exploration at specific points within those 50 years from the simple problems of breathing and eating in space to the challenges of venturing outside in a pressurised spacesuit and locomotion on the moon the first volume of this series will focus upon the 1960s exploring each mission from april 1961 to april 1971 in depth from the pioneering vostok flights to the establishment of the first salyut space station and from alan shepard s modest sub orbital hop into space to his triumphant arrival at the moon s fra mauro foothills almost a decade later
