the villain of rosemary beach finally gets her own happy ending in the long awaited final novel of the 1 new york times bestselling new adult romance series by abbi glines

this book offers to delineate a key phenomenon in contemporary anglophone fiction novel expansion when the plot and characters from a finished novel are retrieved to be developed in new adventures set before after or during the narrative time of the source text if autographic and allographic sequels are almost as old as literature prequels that imagine the anteriority of a narrative and coquels that develop secondary characters in the same story time as the source text are more recent the overall trend for novel expansion spread in the mid 1980s and 1990s and has since shown no sign of abating this volume is organised following three types of relationships to the source texts even if these occasionally combine to produce a more complex structure this book comprises 11 essays preceded by an introduction that examine narrative strategies aesthetic

ethical and political tendencies underlying these novel expansions following the overview provided in the introduction the reader will find case studies of prequels coquels and sequels before a final chapter that encompasses them all and more
